

L. D. S. CHURCH HAS \$650,000 IN ANNUAL BUDGET

Fund Will Cover Expenses of Year, Exclusive of Building Program—Graceland College Gets \$10,000.

Independence, Mo., April 16.—(Special Telegram.)—A report from the Order of Bishops of the Reorganized Church of Jesus Christ of Latter Day Saints to the general conference budget of \$650,000. This is estimated to cover expense in all departments and is exclusive of funds needed to carry out the building program ordered by the conference. Ten thousand dollars are to be used for the use of the class in religious education at Graceland college whose members are being trained for foreign missionary labor.

The church treasury is supplied by the voluntary tithes and offerings of the members and all church ministers and officials work on a basis of equality, provisions being made to care for their needs and just wants and those of their families.

Nebraska Man Called.

Levi Lament of Inman, Neb., was called to office of high priest.

W. D. Sullard, chairman of the administering committee, reported 170 persons administered to during the conference, two of these being nonmembers.

Presiding Bishop Benjamin R. McGuire presented the name of Israel A. Smith, brother of President Frederick M. Smith, as his second counselor, asking the conference to ratify the choice, which was done.

Israel A. Smith is a young lawyer of this city, admitted to the bars of Missouri and Iowa. He was a member of the Thirty-fourth General assembly of the state legislature of Iowa in 1911, representing the republican voters of Decatur county.

Missionary Program.

President Smith outlined part of the missionary program just ahead of the 12 apostles. William Taylor is to open up the work of South Africa, assisted by two young men.

With similar help, R. C. Russell is to follow up the work of Philomont, Penent in Quebec. Thomas Z. Williams will go to England and Switzerland, later to Germany and Jerusalem as the way may open up.

Commerce Commission Takes Steps to Relieve Soft Coal Shortage

Washington, April 16.—The continued coal car shortage prompted the Interstate Commerce commission to amend previous notice to carriers and shippers concerning the distribution of cars.

"Until experience and careful study demonstrates that other rules will be more effective and beneficial," the announcement said, "the uniform rule as contained in the railroad administration's car service section circuit order for the pro-rata distribution of cars for the transportation of coal shall be continued in effect except that private cars and cars placed for railroad fuel loading will be designated as 'assigned cars.' All other cars will be designated as 'unassigned.'"

The new rule was necessary, the statement said, because of the cessation of government control of coal production and distribution and in order that railroad fuel requirements might be met "without the necessity of carriers resorting to confiscation of commercial coal."

Union Engineers of Chicago Schools to Strike for Increase

Chicago, April 16.—Union engineers of the public schools, who are demanding an increase of 40 per cent, will turn over their keys to the board of education Friday morning and go on strike. There are 225 of them and the school board, which recently took desperate chances with the law in advancing the salaries of teachers, cannot see how it can meet the demands of the engineers.

The board has been trying to get some definite statement from the engineers as to what they earn. Their pay is based upon the number of square feet of floor space in their several buildings. Out of this salary they pay their own janitors and firemen. As nearly as the board can figure out, the engineers are making from \$130 to \$300 a month.

Inasmuch as the board of education has no money to meet the increased demand, it will call the spring vacation at once.

Gleaners in Market for Chicago Union Stockyards

Kankakee, Ill., April 16.—G. H. Slocum of Detroit, president of the National Gleaners' association, told the state meeting that the organization had made a contract to purchase the Chicago stock yards. He declared that the Gleaners had long desired a market in which to handle their own products and added that the decision of the government that the stock yards must be sold brought forward the opportunity.

CHICAGO ELITE TAKE ROOMERS AT CONVENTION

Owners of Homes Willing to Accommodate Visitors—For a Consideration.

Chicago Tribune-Omaha Bee Leased Wire. Chicago, April 16.—No trouble at all to get lodgings in Chicago during republican convention week—providing, of course, one has the price—a mere trifle of \$300 to \$3,000 a week. It is assumed the convention will last five days and these rentals are based upon that assumption, but if it should extend over another day, the tenants will not be ejected.

Owners of fine residences on the "Gold Coast," the exclusive North Shore district, have let it be known that they will do what they can to house the convention visitors. The rental may seem large, at first glance, but it includes everything that goes in a magnificently furnished home—doormen, butlers, maids, chauffeurs and, in some cases, a completely stocked cellar.

The lowest figure seems to be \$300 for the use of three rooms for five days. Some of the other bargains include the following:

Mrs. Charles Adsit's entire home for convention week, \$2,500.
Mrs. R. Hall McCormick's entire home, \$3,000.
Mr. Loring W. Coleman, \$1,500.
Charles W. Leland, \$1,000.
Mrs. Rosencrans Baldwin, 11 rooms, three baths, \$2,000.
Miss Cook, nine rooms, \$1,000.
Mrs. William Hubbard, \$1,000.
Mrs. W. H. Schriver, \$1,500.
Mrs. Charles Hamill, \$1,500.

Protege of Roosevelt Quits Police Department

New York, April 16.—Capt. Edward J. Bourke, of the police department, a protege of the late Colonel Theodore Roosevelt, retired from the force Thursday after 25 years' service. He became a patrolman when Roosevelt was police commissioner and after he dared to arrest Mike Callahan, a political power, for opening a saloon on Sunday.

Roosevelt was so pleased that he shook hands with Bourke and promoted him. He received the congressional medal of honor for bravery in the Spanish-American war.

American Socialist Society Fine Is Affirmed on Appeal

New York, April 16.—A fine of \$3,000 imposed recently upon the American Socialist society by the federal district court was affirmed by Judge Henry G. Ward, of the United States circuit court of appeals. The society was convicted of violating the espionage law by publishing and circulating a pamphlet entitled "The Great Madness," written by Prof. Scott Nearing. The latter was pointedly indicted with the society, but after a trial was acquitted.

Victrolas

The smallest Victrola, as well as the greatest, puts at your command the world's best music, both vocal and instrumental, exactly as rendered by the greatest artists.

Bind-Resinol

Little cuts and scratches are aggravating and painful, and they can even become dangerous if infected. Prevent such a condition by cleansing the injured spot well, and then applying RESINOL OINTMENT. Its gentle antiseptic beams soothe while they heal. A physician's prescription, and recommended widely—it is no longer an experiment to thousands who have used it successfully for various skin affections. At all druggists.

CITY EMPLOYEE OF CHICAGO GIVES EYESIGHT TO JOB

Bacteriologist Uncomplainingly Does His Work and Becomes Blind While Others "Soldier" and Kick.

Chicago Tribune-Omaha Bee Leased Wire. Chicago, April 16.—Dr. Eugene Webber is one municipal employee who believes in giving the city something for the pay he draws, so he gave his sight. Twenty-three years of peering through a microscope in the bacteriological department, sniffing millions of germs on little glass slides, squinting at test tubes, have finally sent him blind.

Dr. Webber paid no attention to hours or the demands for more money. He felt that the safety of the people of Chicago rested largely in his hands. In order to reach the remote corner in which he works, one has to pass long rows of mahogany desks and howling about being underpaid and overworked. At a badly worn desk sits Dr. Webber, now past 75 years.

Bacteriologist of Note. He is a bacteriologist of note, a man of distinction in his line, and his work has done marvels for the health of the city.

An apologetic smile came over the old doctor's face when he was asked as to his condition—for he is still working. "I have nothing much to say. I still work, as you see. There is a great deal to do. No matter how much you do it becomes necessary to do more. Oh, yes, my eyes are a bit bad, but, of course, I can still see, a little, and I can still direct the work of those whose eyes are still strong."

He does not consider he has made any personal sacrifice or that he is entitled to any sympathy. He took his work as he found it, and if one happens to go blind, that is all in the chances one takes in any line.

Fourteen-Year-Old "Mother" of Seven Attempts Suicide

Chicago Tribune-Omaha Bee Leased Wire. Milwaukee, Wis., April 16.—Rose Whelan, 14 years old, little "mother" of the Whelan family, consisting of seven brothers and sisters, since her mother died a year ago, late Thursday afternoon was rushed to the emergency hospital suffering from iodine poison and partial asphyxiation. At the hospital she battled valiantly for her life, but physicians held out little hope for her recovery. She had been found unconscious on the floor in a gas-filled room in their little home.

According to neighbors, Rose had lately not been well and was falling rapidly. Her father also had been ill all winter and had been unable to work. For this reason one of the older girls had to work in a factory in order to help sustain the family.

Chicago, April 16.—So many cases quite recently of reckless motorists running down and killing or maiming men, women and children have aroused public sentiment to a pitch where all motorists realize some thing must be done at once to curb the drunk or criminal speed demons to whom the life of a child is nothing.

The Chicago Motor Safety league has been organized, with Judge John Stelk of the speeders' court at its head. This league will have a membership of 8,000, who will act as assistant policemen. There will be three inspectors, 15 captains and 75 lieutenants, with Frank J. Sheard, chief of the American Protective association, at their head. The city has been divided into 767 units, each unit comprising one-half a square mile. Sergeant and 10 men will be assigned to each of these units to report all cases of speeding and assist in arresting offenders.

Think Confessed Slayer of Child Not Accountable. Steubenville, O., April 16.—County authorities, accompanied by Harry Miller of Akron, O., returned from Adena and announced that they believed Miller, who issued to have confessed he killed 11-year-old Frances South a month ago, was demented and was not credited with the crime.

Hoover Petitions Filed. Salem, Ore., April 16.—Petitions to the secretary of state to enter the name of Herbert Hoover on the Oregon primary ballot as a republican candidate for president were filed here. They were brought from Portland in a seaplane.

52¢ How would YOU like a raise like this?

—and for 34 Years Work

THAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far as yours.

But he is paid on the average just 52 cents more per church member than he was paid 34 years ago.

The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first of all.

But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers—and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

We Pay Him Half the Wages of a Mechanic

8 out of every 10 ministers receive less than \$20 a week—about half the pay of a mechanic. And of these pitifully inadequate salaries, how much do you contribute? Nothing if you are outside the church; an average of less than 3c a day if you are a church member.

All of us share in the benefits of Christian ministers to the community. They marry us; bury us; baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

We Are All Profiteers at Their Expense

Part of the Interchurch World program is this—a living wage for every minister of Jesus Christ; an efficient plant and a chance to do a big man's job.

If you want better preachers, help to pay the preachers better. It's the best investment for your community—and for your children—that you can make.
