Omaha, Neb., April 16,1920.

Fellow Republicans:-

As admirers and supporters of Samuel R. McKelvie in his campaign for a renomination as republican candidate for governor, we ask that you consider the splendid record he has made during the past fifteen and a half months.

Gov. McKelvie

His administration has fulfilled every pledge in the republican platform of 1918. He has abolished the old haphazard system of handling public business through irresponsible boards and commissions and has brought about orderly, economical and efficient administration of the state's business through the Civil Administration

He has not sought the favor of professional politicians nor allowed them to dictate either his appointments or his policies.

He has been an honest, fearless, broad-minded, businesslike executive. We therefore declare ourselves for Samuel R. McKelvie for renomination and re-election, and we hope that you will join in supporting him in the primary

Mrs. Mary Elizabeth Robey, daughter of a clergyman, petitioned for a divorce from her husband, Dr. W. C. T. Robey. She accused him of cruelty and misconduct. Dr. Robey denied the allegations and sought restitution of conjugal rights.

The question arose whether the husband had been guilty of a course of conduct which, although not amounting to cruelty, was yet just cause for the wife to refuse to live with her husband.

"I think," the court summed up, in granting the decree to Mrs. Robey, that the doctor traded on the sweetness of his wife's temper, her patience, and her willingness to help

WE WANT A REAL MAN

If ever there was a time in the history of the nation when we needed a real man as president, it is today. Everyone is agreed on that point, the only question is, "Who Is the Real Man?"

The Republicans in Nebraska must choose between three candidates, John J. Pershing, Hiram Johnson and Leonard Wood. There are no other candidates before the Republican primaries in Nebraska.

John J. Pershing is a soldier, through and through. He has had little or no practical experience outside of his military work. His Nebraska promoters have no other important recommendation for their candidate than the assertion that Nebraska should take him as a citizen and "Favorite Son," when the fact is that his citizenship is made to order, and the slogan, "Pershing of Nebraska," a mere figure of speech. His position or his opinion on public questions are lacking, because he has not expressed them. General Pershing is not a serious candidate. His campaign is a cloak behind which Chicago banking interests expect to control the Nebraska delegation.

Hiram Johnson has based his entire campaign on his opposition to the League of Nations. As a United States Senator his "hobby" has been fighting any kind of a League. While some may agree with some of his views on this great question, do you want to elect a man president merely because he agrees with you on one question? In North Dakota, where the Non-Partisan League reigns supreme, and in Detroit, Hiram Johnson has made an unmistakable appeal to the radical and disturbing element of our population. Hiram Johnson will never be nominated by a Republican National Convention.

Between these two extremes, standing for a Modified League of Nations, is Leonard Wood. He is a soldier, but he is more than a soldier. In Cuba, as military governor, he re-established a strong civil government and put the military under the civil at every turn. His greatest experience has been as a civil administrator in Cuba and the Philippines.

Leonard Wood was in Cuba about four years. He left there a reorganized and sound banking system, a good railroad system, no debts, nearly \$2,000,000 unincumbered money in the treasury, a sugar crop of nearly 1,000,000 tons, sound municipal laws, fine public works, a firm agricultural foundation and an absolute respect among the people for life and property. The school system which Wood established was founded on the laws of Massachusetts and Ohio. Roads were built

which made communication speedy. The hospitals erected under his supervision were of the highest type.

Under Wood profiteering was abolished, industry was built up, agriculture rehabilitated, hospitals organized, equipped and maintained, tens of thousands of people clothed and fed-and all this was done in a thorough, business-like manner. It was done under tribulations which arose from the fact that the people were impoverished to the point of starvation, and had been dying by thousands for the lack of the things which Wood quickly provided. The farmers were furnished with implements and food, and were given that aid which enabled them instantly to start at the work of production. The whole nature of things changed with almost incredible swiftness. Order speedily supplanted disorder.

Leonard Wood can be nominated at the Chicago Convention. Nebraskans can well be proud if they help towards his nomination.

The Republicans must win the election in November.

They can win with Wood, and the American government will be in safe and steady hands.

Go to the polls Tuesday and vote for Leonard Wood!

Has the Measure of Them All

At the risk of an eternal breach we are going to still insist that Leonard Wood leads them all as a business man. His record in Cuba, the few years it took him in the Philippines to restore order and industry and happiness and bring back smiles to the faces of those primitive people brands him as one of the greatest business organizers of his age. Of course, some people will say that his job was an administrative one. Sure it was, and what is an administrative job but business?

And was there ever in the history of this country a time when we needed an administrative business man more than we do at this exact moment in the period of our history? We need a firm executive who has had the training Wood has to reach back into for the right precedent at the right time, and failing to find a precedent from which to build we can all rest assured that Mr. Wood will be absolutely fearless in his decision as to what is best. Nope; we haven't a word to say against the men who approach the Wood standard, but we insist that to date he has the measure of them all.—Columbus Daily News.

WE WANT WOOD

Assemblyman Theodore Roosevelt, New York, Extols Nation's Choice for President

"We are approaching the Election next Autumn of a Presidential Candidate. We of the Republican Party are going to be successful. Rarely if ever in history has the country been in a more critical condition, shaken by the strain and turmoil of a great war and debauched by eight years of the Wilson Administration. We are the prey of violent oscillations of thought.

"The trend given to our actions during the coming four years will shape our country for many decades in future. We need a man who will combine two principal characteristics. First, the fearless determination to preserve law and order and the ideals of this country, and second, the ability to conceive and put into operation the fundamentals of constructive, sane Liberalism.

"General Wood is this man. He

is not a man whom we have to take on trust. He is a man with a record which is his Recommendation. He has handled most difficult Administrative work with consummate success, as his record in Cuba and Philippines indicates. There he preserved order under trying circumstances with justice and wisdom in such a manner that order did not collapse when he left, but remained as a testimonial of his success "He handled economics in such

fashion that general prosperity and fair dealings contributed to the good of all people concerned.
"Above all, General Wood is a big man. He is big enough to desire to have around him only the best men. He is not afraid that the work of a subordinate will overshadow his achieve-We want Wood at this
