Baltimate deal and the leave to a Cattle—There were approximately 3,000 leas cattle here today than yesterday, the run being estimated at \$3.00 head. For the two days is 19,900 as compared with 1,100 hast week and 5,700 for the two days a year ago. Steers sold very slowly, with packers bidding about steady prices on the light weights and yearlings to around 25c lower on the heavy finished cattle. Cows were fully steady with the best time yesterdya on the early rounds, but along towards noon prices weakened somewhat. The run of she stock was very light. The feeder market showed some improvement, although there was not much fresh stuff on hand. For the two days prices are 25c or more higher.

Osts Close Strong.

Selling of big line of September oats by a house with eastern connections was a feature early, but later sensational reports regarding seeding conditions in the states of largest production started shorts to covering, and the close was at the top at the best figures of the season. Sample vales unchanged to 1c lower.

Reports of a slakening in the export demand for rye had a depressing effect on that grain, and induced considerable profit-taking, the close hing practically unchanged. No. 2 on track was 3@3½s over May.

Barley offerings were small and sold readily at unchanged prices, sales being at \$1.62@1.69.

Foreign demand for cash wheat continues very active. Cables from Argentine reliterated recent statements that an embargo on exports was probable. The seaboard bid \$3.04, track New York, for No. 2 red or hard winter early and brought one car here and later advanced its basis Ic per bushel. Sales at the seaboard to Europe were reported at 1,000,000 bushels. Brazil is regarded as about to enter into competition for wheat in this country. Crop reports were generally poor. No. 2 hard on track sold at \$2.82.

Change is Sestiment.

Bulk of the selling of corn early was attributed to large eastern operators who were believed to be taking the short side on the unfavorable developments in Japan, having liquidated their holdings of stocks last week. This selling was followed by the pit element and there was also a marked change in sentiment on the part of commission houses. On the break there was persistent buying by houses with country connections, which absorbed the surplus in the pit and the early sellers had to cover.

May corn at \$1.73% not only established a new high for the season, but advanced a new high for the season, but advanced to a point where it showed a fraction above the July delivery in Liverpool. Two carsoes of Danubian corn were offered in the latter market at \$1.76, the first quotation in some years. On the other hand Brazil was inquiring for 10,000 tons of a Mareican yellow corn, 16 per cent test at New York.

Cash demand her was slow with the east canceling 165,000 bushels. Sample values in 1/2 higher to 2½c lower.

These young women are happy and ambitious to serve well their patrons and friends—the public.

Each of these girls is trained in the telephone school, where she is taught how to handle your telephone calls rapidly, accurately and courteously. They are liberally paid while in the school.

Being a telephone operator is a profession; a splendid opportunity for pleasant, worthwhile work, with other young women as office companions.

The salaries of telephone operators compare favorably with those paid in other professions, such as stenographic work, bookkeeping, teaching, library work, etc.

These young women are servants of all their fellow folks in Omaha, and we believe you are interested in them and their affairs because they help give telephone service to you.
