Ways and Means Committee Can't Decide on Practicable Method of Getting Funds to Pay Soldiers.

Washington, D. C., April 21 .-(Special Telegram.) - Representative Green of Iowa, ranking member of the ways and means committee, which is holding daily sessions in an effort to report a bonus bill that would satisfy the ex-service men and at the same time keep the gov-ernment from being swamped financially, said today as to the progress being made toward ironing out differences in considering the re-ports that have been given out with reference to this bonus bill, it should be borne in mind that merely tentative proposals have so far been

submitted to the committee.

"For example, it has been widely advertised that the rate would be \$1 a day. This was the original proposition, but I am inclined to think that eventually when the matter comes before the full committee.
\$1.25 a day for all time above 60 days will be allowed. The subcommittee on raising the funds, of which I am a member, is having which I am a member, is having great difficulty in reaching some method. The sales tax, which I generally supposed to be a very simple and easy method, has been found,

upon discussion, to be in fact extremely complicated.

"It is not desired to tax the sales of farm products by the grower or producer, as a farmer cannot pass on the tax in the manner in which other sales taxes are generally passed along. It is also very diffi-cult to keep the same article from being taxed more than once in the various processes of manufacture, l favored all along getting the greater part of the money necessary by in-creasing the surtax upon the big in-

"Against this it is argued that the multimillionaires are now putting their money into tax-exempt securi ties, and that if the rates are increased the result may be to get less instead of more revenue. I do not believe this would be the result if the surtax were raised to the rates originally fixxed by the house in the last revenue bill. Some prop-ositions are also made to impose a retreactive tax on profits made durretroactive tax on profits made during the war above a certain amount, but these propositions are of doubt-ful constitutionality to say the least. and whether anything could be until the supreme court passed upon it."

Plants Raise Million Nickels for Monument To Roger C. Sullivan

Chicago Tribune-Omaha Bee Leased Wire. go awry, the late Roger C. Sullivan, late democratic boss of the state, will have a monument that will mean something more than a mere shaft of marble of an artistic work in bronze. All his friends, down to the little crippled children whom he always remembered, will have a share lightly market a coordinate interest. in the work, a proprietary interest, for it is proposed to accept 1,000,000 nickels from that many subscribers—nothing more or less than a nickel. and only one nickel from each sub-

Want Pink Cheeks-Red Lips?

Some unfortunate men and women are prone to wonder why some of their friends are blessed with an abundance of color—pink cheeks and red lips—while theirs are always colorless. The reason for this last named condition is—there is not enough red blood corpuseles in the blood—under a microscope the blood is thin and watery. The flesh is flabby too. Well known physicians assert that the regular administration for several months, of three-grain hypo-nuclane tablets will greatly improve the color; add to the weight, make the cheeks pink and the lips red and in general be very beneficial. For self-administration, obtain from any of the best apothecary shops.
