

Neck Broken, Lives Weeks Without Knowing It
Lafayette, Ind., April 23.—Larson Stingley, 23, a farmer of Clarks-hill, today is a prisoner in a brace which confines his head and chest while he undergoes an experiment

for the mending of a broken vertebrae. Stingley was injured in a run-away accident last November and for weeks he went about as usual unaware that his neck was broken, although one arm and hand had been paralyzed since the accident.

He came here for treatment and an X-ray picture showed that a vertebrae was fractured. Physicians attributed his ability to live to the fact that through some freak the spinal cord had not been severed. In an effort to restore him to normal an unusual operation was at-

tempted. A piece of bone was taken from his leg and grafted in the fractured bone. The cast was placed about him and he will have to remain in the one position about six months before it can be determined whether the operation is a success.

Couple Adopt 7 Children

Loveland, Colo., April 23.—No race suicide tendencies will be noticeable in the family of James C. Anderson, even if the stork does fail to stop at the ranch door of his

mountain home, west of this city. Mr. and Mrs. Anderson have formally adopted the seven children of Mrs. Charles C. Hacken, who died recently. The children range in age from 1 to 14 years. Their father is living, but poor health prevents him from properly caring for the brood.

2 1-2-Year Sentence for Offering Bribe to Judge
Benson Harbor, April 23.—Her-man Marutz of St. Joseph offered Judge Charles E. White \$150 to deal leniently with him in passing sentence for stealing hosiery from the

Cooper-Wells company mills of St. Joseph. The prisoner was to have been given six months, but when bribery was attempted his sentence lengthened to two and one-half years in Jackson prison.
