Attorney General Still Confident of Victory in Georgia

Washington, April 24.—Attorney General A. Mitchell Palmer, pausing in his administrative prosecution of food profiteers and crusade against the reds for a moment, expressed gratification over the outcome of the democratic primary in Georgia, where he won a plurality of delegates to the state convention.

The attorney general declared that rumors of a coalition in the state convention of the Watson and Hoke Smith forces, which opposed him, were groundless and predicted that he would have a majority of the delegates from Georgia for his nomination for president at San Francisco.

Forty Brothers Named Cowan Found Missing

Court Clerk Buried in Letters Received From Aspirants to \$2,000,000 Estate.

Forty Brothers Named Cowan Found Missing

No less than 40 men by the name of Cowan have been reported "missing" in letters to the Douglas county court since a mysterious stranger called there, four weeks ago in search for heirs of the late William Cowan, who died two years ago in New York, leaving an estate worth \$2,000,000.

Forty Brothers Named Cowan Found Missing

Notice of the appearance of the mysterious stranger here was recorded in the papers. Chief Clerk Clyde Sundblad of the county court has received 40 letters.

Forty Brothers Named Cowan Found Missing

"They all have missing brothers," said Mr. Sundblad. "It's perfectly astonishing what a tendency there is among 'brothers' of this name to wander off and become 'missing.' But, so far, none of them has offered proof or established any claim giving them even a remote chance at the \$2,000,000 estate."

ONE OF THE REASONS FOR THE FUEL ECONOMY OF DEVOL'S SYPHON SYSTEM. A Furnace That Experience Built. Unless the combustion chamber is high, wide and roomy, and unless the outlet from the combustion chamber to the radiator (shown by arrow heads in cut) is of large diameter, combustion is choked at this point and the radiator becomes valuable only as a passageway for the escape of gas and smoke (valuable heat units) up the chimney. A wide outlet at this point means that the combustion may continue almost entirely around the radiator—at least far enough to consume the wasting gases—thus prolonging the life of the fuel and making prime heating surface of the entire radiator. This is JUST ONE of the details that EXPERIENCE HAS TAUGHT US the value of, and JUST ONE of the reasons for our record of MORE THAN 99 1/2% of efficiency in OVER 200 INSTALLATIONS made last year. P. C. De Vol Hardware Co. MANUFACTURERS.
