**Six Detectives In Ambush In Institution Which Was Robbed of \$115,000 In December.**

Six Omaha detectives have been "planted" at the Farmers' and Merchants' National bank, at Benson, since Thursday, following a tip that the bank was to be robbed again. This bank was held up and robbed of \$115,000 in cash and Liberty bonds December 31.

**Omaha Student at Haverford "Digs In" To "Dig Out" Railroad**

Friends of William H. Hamilton, president of the 1919 class of Central High school, were surprised to see him clad in overalls and working for a railroad near Philadelphia recently.

"What's the matter, Bill?" asked C. J. Clason of the Peters Trust company, who was in Philadelphia on business last week and the folks out of the allowance?"

The strike was the reason why Hamilton and about 150 other students of Haverford college volunteered for service to relieve congestion in the vicinity of Philadelphia. "The engine that pulled my train from New York to Philadelphia," said Clason, "was fired by a student whose strength gave out at New Brunswick. There was a 20-minute delay until a fireman could be secured."

The students are living in Pullman cars and receiving Pullman service while working during the strike.
