

Is Your Guard Down?

Every man is a fighter, though he may not be a pugilist. His daily task is his fight - and he needs to be fit and ready for it.

Constipation to the business fighter is the "out-of-condition" of the pugilist. Constipation not only makes the business fighter dull and slow, and unfit for effort, but it is the "lowered guard" that leaves the opening for the jarring blows of serious disease.

By an entirely new principle Nujol keeps the poisonous food waste moving out of the body. Every other form of treatment either irritates or forces the system. Nujol works on the waste matter instead of on the system.

Nujol prevents constipation by keeping the food waste soft, thus helping Nature establish casy, thorough bowel evacuation at regular intervals - the healthiest habit in the world.

It is absolutely harmless and pleasant to take - try it.

Nujol is sold by all druggists in scaled bottles only, bearing Nujol trade-mark. Write Nujol Laboratories, Standard Oil Co. (New Jer-sey), 50 Broadway, New York, for booklet "Thirty Feet of Danger."

Ten Years Younger Than His Years

Doesn't it make vou feel good-cause you to straight-en up and feel "chesty"when someone guesses your age at ten years or so younger than you really are? You look into your mirror, smile with satisfaction and say to yourself: "Well, he didn't make such a bad guess, at that."

The point is: You're no older than your vitality.

If a man is strong, vigorous, mentally alert, fine and fit at 50 he has a better chance of living up to 80 than a man of 30 who is weak and run-down has of living up to 60. While none of us can stay the years nor stop time, we should all make an heroic effort to successfully resist the effects of time by ever keeping our vitality at par.

When you sense a feeling of slowing down of your physical forces-when your stomach, liver, kidneys and other organs show signs of weakness-when you notice a lack of your old time "pep" and "punch" - in other words, when you feel your vitality is on the wane, you should com-
