The insular steeks were and the state of the Chicago Tribune-Omana Bee Leased Wire.

New York, April 26.—Several of the markets made notable progress today in recovering the ground lost in last week's sharp fall of quotations. Stocks moved upward under momentum which reached widely into the railroad department after industrial issues had recorded strength during the morning hours.

Cotton advanced with considerable power and there were gains, under feverish trading, in grain and provisions. Doubtless short covering directed by influences peculiar to the markets was largely instrumental in continuing Saturday's improvement, and comment of stock commission houses indicated that dealings were still chiefly in charge of the professional speculators.

Maturity dates 1923 to 1927 and convertible
