STEEL EARNINGS SHOW INCREASE FOR THIS YEAR

Regular Quarterly Dividends On Common and Preferred Stock in Keeping With General Expectations.

New York, April 27.-Total earnings of the United States Steel corporation for the first quarter of 1920 show an upward trend from the final quarter of 1919, the aggregate of \$42,089,019 representing an increase of \$6,297,717; net income of \$31,323,701 increased \$8,283,426, and surplus of \$13,373,085, a gain of \$8,-150,797. Regular dividends of 134 per cent

on the preferred and 114 on the common were in keeping with general expectations, no advance in the common rate of distribution having been regarded as probable after the recent statement of Chairman E. H.

Analysis of the quarterly report disclosed some irregularity of business. January returns were well above \$14,000,000, while those of February, a shorter month, felt slightly under \$13,600,000, with a rebound to \$16,402,898 for March. On the basis of today's figures the common stock carned \$3.88 for the quarter, against the previous return of only \$2.27 and \$3.43 in the third quarter of 1919. The year's first quarter made a

better showing than any since the third quarter of 1918, when the earnings reached \$42,961,589. Record figures during the war were established in the second quarter of 1918, when earnings amounted to \$62,557,391.

Three other states have filed applications for admission to the league, the republic of Georgia, San Marino and Luxembourg.
