

K. C. & N. MAY PUSH TERMINUS ON TO LINCOLN

Railroad Has Made Definite Plans for Extension, According to W. A. Ransdell of Beatrice.

Beatrice, Neb., April 28.—(Special)—W. A. Ransdell of Beatrice stated today that he had received definite information that the Kansas City and Northwestern railroad is to be pushed through from Virginia, Neb., to Lincoln.

According to Mr. Ransdell the engineers are now engaged in making a survey from the Virginia terminus to the capital city via Adams and several other towns. Mr. Ransdell says that the line is to run through Hanover township north-east of Beatrice and that a new town in that township is being considered.

Mr. Ransdell was one of the boosters for the Beatrice promotion fund when an effort was made to obtain \$3,000 in contributions to assist the road. The matter was left to a committee, which never reported and the matter was dropped. Nearly all of the towns along the route between Virginia and Kansas City have voted bonds to put the road on a sound financial basis, and when the last election is held May 2, nearly \$1,000,000 will have been raised.

If the road's finances are again placed in a healthy condition the line will be entitled to \$50,000 in the way of a government loan. The resumption of service last month placed the road in line to receive the government aid.

For the Thin and Bloodless!

The thin and bloodless, with pale cheeks, white lips and frail angular physique, of this community have been much interested in the reports of physicians and others concerning the effectiveness of the treatment for increasing the red and white corpuscles of the blood, thus adding color and weight with its accompanying vigor to the depleted system. A gain of from 10 to 20 pounds is not at all unusual where the treatment is regularly used for several months, while the color improves almost from the beginning. Most good apothecaries supply it in the form of three-grain hypo-nucleate tablets, put up in sealed packets with directions for home use. Its action aids assimilation and absorption of the food eaten very promptly.

War Department Tape Keeps Soldier's Body From Grieving Family

Atlantic City, Ia., April 28.—(Special)—In a morgue at Morrison, Ill., lies the body of Robert M. Tanner, young soldier who met an accidental death two weeks ago, while his sorrowing relatives here are anxiously waiting for the red tape of the War Department to be sufficiently unburied to allow the shipment of the body here for burial.

Thomas W. Jones, the young man's uncle, has appealed in vain for the War Department to speed up and send his nephew's body here. The uncle has been referred to two or three different war bureaus, but so far he apparently is as far from getting results as he was at the outset.

Tanner, who came here from England and resided here last year, while accompanying a military soldier from Denver to Michigan, Tanner jumped from a moving train and was killed. It is thought he did so while asleep.

CARRANZA FAST LOSING GROUND IN NORTH MEXICO

Several Commanders of Government Troops Are Reported to Have Agreed to Join Revolutionists.

Agua Prieta, Sonora, April 28.—Carranza apparently is losing ground rapidly in northern Mexico to the revolutionists without bloodshed. The revolt has spread into Chihuahua, where more Carranza military leaders were reported to have joined the rebels.

Gen. P. Elias Calles, commander-in-chief of the rebels in the northwest, today said more defections from the Carranza ranks were imminent and that several Carranza leaders had agreed to join the revolution at a time agreed upon. He said he expected all of northern Mexico to turn to the liberal constitutional cause within a week or 10 days.

General Calles last night received a report that Gen. Ramon Iturbide, Carranza military commander in the states of Sinaloa and Nayarit, and who now is preparing to resist Carranza troops under Gen. Angel Flores in their march on the port of Mazatlan, had announced he would evacuate the port unless Carranza reinforcements reached there before the rebels.

Part of Col. Francisco Del Arco with his troops in Chihuahua was part of a prearranged plan, General Calles said. He also announced he expected to have reports of two other Carranza leaders in the same state having joined Del Arco with their men.

Cutting of railway communication between Juarez and Chihuahua City, it was stated, will be serious for the Carranza troops being concentrated about Casas Grandes for a projected attack on Sonora.

The troops about Casas Grandes, already reported as unwilling to fight, may find their lines of communication cut behind them. Their mounts were reported in poor condition, and the entire force, estimated at from 3,000 to 5,000 men, may be forced to surrender, it was said. In the meantime more troops are being rushed here and to the main passes east of here through which the Carranzistas must pass to attack Sonora.

Candidates Answer Questionnaire From Farm Organization

Washington, April 28.—Approval of co-operative bargaining, improved rural credits, reduction in the "growing evil" of farm tenancy and national conservation was voiced by presidential candidates, who have answered the political questionnaire of the National Board of Farm Organization. Replies were made public from Governor Lowden, Senator Owen, James W. Gerard, former ambassador to Germany; Herbert Hoover, and Maj. Gen. Leonard Wood, each pointed to speeches or printed articles, which, they said answered the questionnaire.

Senator Owen approved all planks of the farmers' platform except that making the nominee for secretary of agriculture acceptable to farmer organizations.

Mr. Gerard's approval was blanket, except the plank calling for payment of the war debt "chiefly through a highly graduated income tax."

Senator Lowden submitted a detailed reply as "a private citizen," reiterating his public statement that he was not a candidate and Governor Sprout of Pennsylvania also denied that he was considering entering the race.

JAPANESE ARE MASSACRED BY SIBERIAN REDS

Guards and Residents of Nikolaevsk Annihilated In Uprising Characterized as a "Serious Upheaval."

Washington, April 28.—Japanese guards in the district of Nikolaevsk, eastern Siberia, are believed to have been annihilated and several hundred Japanese residents, including the Japanese consul there, massacred, according to an official statement issued by the Japanese foreign office and made public today by the State Department.

The Japanese statement said the suspension of communication with the district rendered it impossible to get at the real state of affairs, but that it was evident that "a serious upheaval" had taken place. Efforts of the Japanese to dispatch a military relief expedition into the district have failed because of the ice.

Meantime, however, the Japanese have sent an expedition to Alexander Mikasa, accompanied by the warships Mikasa and Mishima. The forces reached their destination April 22 and found the Japanese residents in that district safe. Most of them were taken aboard the Mikasa.
