ALL WRONG WAS HER LIVER

Before Taking Black-Draught, Missouri Lady Was Troubled With Constipation, Headache and Bad Taste in Mouth.

Grandin, Mo.—Mrs. Susa Brooks of this place, writes: "Some time ago I was in a bad fix, with stomach and liver trouble. I did not feel good at any time. I was very constipated, and had headaches from this condition, and had a continual hurting in my stomach, and bad taste in the mouth. Could tell my liver was all wrong."

"I had known of Black-Draught, so decided to try it myself. I began with a large dose or doses, gradually getting to smaller doses. It regulated my bowels, relieved me of the hurting in my stomach, cleaned off my liver and made me feel like a new person."

If you get up in the morning feeling as tired as you did when you went to bed—achy, coated tongue, bad taste in mouth, sallow complexion—then your liver has not done its full duty, and your system has absorbed the poisons which your liver should have taken away.

An occasional dose of Thedford's Black-Draught will help this important organ to function properly.

Brass Ornaments.
Brass ornaments which have been neglected and allowed to become discolored may be brightened instantly with oxalic acid, dissolved in water and rubbed on with a flannel cloth. The acid is poison and should be used carefully.

Mrs. Olive Stott Gabriel is considered the shrewdest woman politician in New York City. She is also an able lawyer.
