the local committee in charge reported yesterday.

A. D. Peters, acting secretary of the local organization, declared that the response from Nebraska and western Iowa shows a strong demand for an organization seeking the betterment of the horse and mule business. This means a large attendance at the meeting, he believes, and the perfection of a strong organization.

**Explains Need For Body.**

There is a great need for a central body to aid in the development of better types of draft animals, he believes. The horse association is supplying that service in other localities, Mr. Peters pointed out. Indications are that no substitute for certain kinds of work now done by animals, will ever be evolved, men familiar with the situation say. Horse and mule production is just emerging from the disturbances of the war, and the time is felt to be right for careful, concentrated breeding of animals suited for special work. The purpose of the Horse association is to further the advancement of light delivery, carriage and saddle horses as well as the heavier draft breeds.

**Entertainments Arranged.**

Those attending the meeting next month will be the guests of the Ak-Sar-Ben driving club at its opening race meet, during the afternoon of May 15. Later they will be entertained by the Omaha men behind the association at a dinner at the Fontenelle Hotel. A smoker and get-together meeting will follow.

The following men are handling the affairs of this initial movement until a permanent organization is formed at the Omaha meeting.

**353 BODIES OF SOLDIER DEAD REACH NEW YORK**

**Arrival Marks First Return of War Victims From France — Will Send Remains to Homes.**

New York, April 28.—The bodies of 353 American soldiers who gave their lives for the cause of freedom and humanity on foreign soil, and of whom all but 80 died in France, arrived here today on the army transport Mercury from Antwerp and Southampton.

Their arrival marked the first return of soldier dead from France. The bodies of four officers were aboard.

As soon as the living passengers left the Mercury the bodies were removed from the hold and the caskets, shrouded under the cover of new American flags, were arranged in company formation on the pier, where, but a comparatively short time ago stood living, energetic young Americans anxious to board the transports which carried them to the foreign shores where they made the supreme sacrifice.

Under a soldier guard of honor the caskets were prepared for shipment home by rail. Each body will be accompanied by a uniformed guard of honor who will remain with his charge until the casket is lowered into the final resting place.

At the piers there was no ceremony, no display or ostentation save colors at half mast and the bare walls of the temporary pier morgue hidden with the flags for which the men lived and died.

**French Troops Ambushed By Turks at Urfa Retreat**

Paris, April 28.—Official accounts of the French retreat from Urfa, Asia Minor, confirm the reports that the retreating column was ambushed, although the French had an agreement with the Turks which they believed would ensure a safe retirement.

The French left Urfa only when food and water were lacking, after a sustained siege of two months. The French losses in the night are said to have been small, while the admitted Turkish casualties totaled 500.

**Millerand Says Troops to Leave Frankfurt Very Soon**

Paris, April 28.—Premier Millerand, in making a declaration to the Chamber of Deputies today on the results of the supreme council meeting of San Remo, said that the Frankfurt and Darmstadt territories would be evacuated by the French as soon as the allied commissions have established that the German armed forces over the number allowed by the convention of August, 1919, had been withdrawn.

**CHICAGO BANKS PREPARING FOR READJUSTMENT**

**Shut Off All Real Estate and Building Loans — Adopt Cautious Policy.**

Chicago Tribune-Omaha Bee Leased Wire.

Chicago, April 28.—Fortifying themselves against the readjustment that must soon come, banks of Chicago have shut off all real estate and building loans. With money "tight" and real estate values swollen far out of their normal dimensions, the bankers believe it is time to move with caution.

Furthermore, they see, very near the point where various enterprises, hampered between heavy federal and other taxes on one side and constantly increasing labor demands and reduced production on the other, will be forced to cease operations until affairs settle down. Already many factories have drawn their fires, giving as a reason inability to secure materials, due to the railroad strike.

Action by Chicago banks in refusing loans for building purposes may shut off great construction plans here. It is freely predicted that building operations will be at a standstill here before many weeks. This means thousands of artisans out of work. It is known the union carpenters, recently granted \$1.25 an hour, intended to force this up to \$1.50 an hour early in the building season.

Bankers say money is "tight" because of undigested war loans, credit inflation and the railroad situation. The banks are bulging with savings deposits, but commercial deposits have materially decreased. The switchmen's strike has driven many business houses to the ragged edge. Much of their capital is tied up in shipments.

All the coal in South Africa, with the exception of some unimportant lignite beds in Cape Colony, is contained in rocks of the Karroo system.

Springfield, Mass., 129,338; increase, 40,412, or 45.4 per cent.

Fitchburg, Mass., 41,013; increase, 3,187, or 8.4 per cent.

Gardner, Mass., 16,960; increase, 2,261, or 15.4 per cent.

Elmira, N. Y., 45,305; increase, 8,129, or 21.9 per cent.

Niagara Falls, N. Y., 50,760; increase, 20,315, or 66.7 per cent.

**Man Fined \$10 Because He Was Rude to Chicken**

New York, April 28.—Never be rude to a chicken. That is a rule by which Frank Carana will live strictly in future, for rudeness to a chicken cost him \$10 today. He was haled to the Essex Market police court by Superintendent Moran of the Humane society, who described to the court how Carana had impolitely, inhumanely and heartlessly wrung the necks of two pullets in a butcher shop—contrary to the manner by law for their death provided. All this sounded so terrible that Magistrate Levine imposed a \$10 fine.

**Montana Metal Workers Plan General Strike**

Butte, Mont., April 28.—Montana Metal Workers' union No. 800, I. W. W., which called a strike against the mines in the Butte district, is trying, it was announced today, to bring about a general strike in Montana on May 1 as protest against the shooting of strikers in rioting here last Wednesday. The mines are working with about 50 per cent of the normal force, the companies announced.

**ASPIRIN—Its Uses**

First Introduced by "Bayer" in the Year 1900

The name "Bayer" identifies the true, world-famous Aspirin prescribed by physicians for nineteen years. The name "Bayer" means genuine Aspirin proved safe by millions of people.

In each unbroken package of "Bayer Tablets of Aspirin" you are told how to safely take this genuine Aspirin for Colds, Head-

ache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis and Pain generally.

Always say "Bayer" when buying Aspirin. Then look for the safety "Bayer Cross" on the package and on the tablets.

Handy tin boxes of twelve tablets cost but a few cents. Drug-gists also sell larger packages.

Aspirin is trade mark of Bayer Manufacture. Monocetacidester of Salicylicacid
