considerably darker on the side next the earth's shadow. It will be completely illuminated by the sun only after 10:53, when it emerges from the penumbra.

Evening Stars. Jupiter, Saturn and Mars are evening stars and in good position to observe. They come to the meridian respectively at 5:45, 7:21 and 10:16 p. m., on the 15th.

Why Should Mars Signal? For the sake of argument, however, let it pass. Let us grant it all. Let us suppose the Martians are ages ahead of us in wireless and in everything else.

Could Not See the Earth. Secondly, the astronomical side of the question is generally not understood at all by those that favor the existence of the Martians.

The Signals from Mars. The position of Mars of 1920 is now a topic of the past, and let us hope that the talk of its being inhabited by intelligent beings has gone with it.
