## Market News of the Day

#### Chicago Grain

By CHARLES D. MICHAELS.

While the east holds very small stocks of corn and oats, domestic distributors cancelled 55,000 bushels of corn and 53,-000 bushels oats, due to inability to get shipments from the west.

of corn and oats, domestic distributors cancelled 55,000 bushels of corn and 55000 bushels oats, due to inability to get shipments from the west.

Rye Closes Strong.

Trade in rye was rather light, but May acted tight at times, and closed well toward the top on short covering. Reperts of a strike at New Orleans and that one of the leading lake lines had ordered its steamers tied up until further orders had some effect, as it was feared that export movement might be curtailed. No. 2 on track sold at 3c over May, against 5c over recently. Nothing was heard regarding export demand.

Offerings of barley were small, and demand good with prices unchanged to 3c higher with sales at \$1.70 @1.85, the latter a new high on the crop.

Seaboard exporters backed away from offers of wheat for first half of May shipment, which was offered at \$2.93 c. i. f. bay. At the guif \$3.08 was offered at \$2.93 c. i. f. bay. At the guif \$3.08 was offered at \$2.93 c. i. f. bay. At the guif \$3.08 was offered at \$2.93 c. i. f. bay. At the guif \$3.08 was offered at \$2.93 c. i. f. bay. At the guif markets were firm.

#### **Bonds and Notes**

Chicago, May I.—General evening up on the part of the shorts for over Sunday resulted in a higher average of grain prices. Trade was light, however, and the best figures were not maintained. May corn lost 1 7-8c on reports that 15,000 bushels delivered on contracts before the opening was not in good condition while deterred deliveries were 1-2c higher to 3-8c lower, the former on July. Oats gained 1-2@1 5-8, May leading, selling at new record figures. Rye closed 1@1 3-8c higher and barley 1c higher.

Despite a wek's campaign on the bear side of the market and reports of very strained financial conditions corn closed 3 1-4@8 3-8c higher as compared with the finish of the previous week, while oats were 1@5 5-8 higher, May leading in both instances. Rye was 4 7-8@6c lower and barley 4c lower.

Support on Breaks.

With the bulk of the trade of a local character, corn and oats were seally influenced. On the breaks there as all influenced. On the breaks there as all influenced. On the breaks there as all influenced. On the breaks there are the conditions over the belt were much more favorable. Weekly forecast was for rain early followed by generally fair with nearly normal temperatures. With the stock market closed, the trade was forced to give their attention to the factors that govern grain prices exclusively.

While the east holds very small stocks of corn and oats, domestic distributors of corn and oats, domestic distributor Quotations furnished by Peters Trust ompany, yesterday;

New York, May 1.—While quiet, cottonseed oil was surprisingly firm today on
urgent demand from May shorts. Refiners sold near the close and affected a
moderate setback. Tenders of 1,400 barrels were put out, but found ready lodgement. May closed 50 points higher and
later months seven to 10 set higher. Sales,
6,400 barrels. Prime crude, 15.25@15.50;

Two Boys Given Suspended Sentences by Judge Sears

Harry Hopkins, 4921 South Twenty-seventh street, and Aubrey Munsel, 5211 South Twenty-fourth street, were put under suspended orders for the Kearney Industrial school by Judge Sears in juvenile court yesterday. Harry is the boy who is said to have fired the mysterious shot April 14 which wounded Aubrey on the Fort Crook interurban right-of-way.

The two boys were up in court for robbing the store of A. Altman, 5107 South Twenty-sixth street, on April 10.

Nearly 6,000 Delinquent In Wheel Tax Payments

Nearly 6,000 automobile owners are delinquent in the payment of 1920 wheel tax, according to W. J Hunter, city clerk.

Nearly 10,000 have complied with the law this year. Last year there were 14,563 wheel tax licenses issued and the city clerk estimates there should be at least 16,000 this year. The city has collected \$22,000 this year in wheel taxes. Friday the city clerk collected \$1,100.

U. P. Officials On Survey

Carl R. Gray, E. E. Calvin and I. M. Jeffers, president, vice president and general manager, respectively, of the Union Pacific railroad left Omaha Friday on a special trip over the lines of the road in Kansas. Conditions of equipment, agricultural prospects and needs of the railroad will be inspected. They planned to return some time next

# RETARDATION OF AKIN ESTATE TO

MENDED STREETS Death of Aged Parents, Will Provides.

**Bonds Affects Mainte**nance Department.

The retardation of the paving program for this year, due to the inability of the city to sell \$100,000 intersection paving bonds at 5 per cent and par, will affect the street maintenance department, according

to City Commissioner Butler. He asserts that it will be necessary to do considerable patching of asphalt pavements which should be repaved, and he cites Sixteenth street, Locust to Farnam streets, as a particular instance. Part of this thoroughfare-Douglas street Victor avenue-has been held abeyance as a repaving district for two years and was up for disposition this season.

Repair the Asphalt. The street department has repaired the asphalt on Sixteenth street, Locust to Farnam, already this season. Mr. Butler contends that this street should be repayed without further delay, because he says it is an expensive proposition for the city to frequently repair old asphalt pavements. Last year he went over Six-

teenth street three times.

Since this spring's work was started the street repair department has repaired Sixteenth, Douglas to Davenport; Davenport, Sixteenth to Eighteenth; Eighteenth, Davenport to Webster; Harney, Fifteenth to Eighteenth; Farnam, Twenty-fourth to Fortieth; Twenty-fourth, St. Marys avenue to Dodge; Dodge, Forty-second to Forty-fifth, and it is now repairing Sixteenth, Leavenworth to Vinton.

Streets Need Repaving. Mr. Butler refers to Twentysixth and Twenty-eighth streets, from St. Mary's avenue to Harney streets, as striking illustrations of old asphalt pavements which his department will endeavor to patch again this spring, although he states that it is plain to the casual observer that these streets should be repayed.

ment is limited to \$75,000 and it is the opinion of the commissioner that this appropriation will be exhausted earlier than usual this season. Principal Thoroughfares First. Mr. Butler believes that first at-

The street maintenance depart-

tention should be given to the prin-cipal thoroughfares which carry the bulk of the traffic and are obviously of most importance. The result will be that many outlying streets must be neglected this year. Illustrative of the expense of re-

pairing old asphalt pavements, he states that the work already done this spring on Sixteenth street, Locust to Farnam, and now being done rom Leavenworth to Vinton, will cost about \$15,000. He believes that the cost of repairs that were made on Sixteenth street last season and which will be made this season would easily pay for substantial re-
