A little weakness developed on heavies toward the close, selling down to \$13.50 and under.

It would not be surprising if the railroad situation came in for more attention during the next few weeks than the industrial field, for the transportation act necessitates a de-

Furthermore, today's news that a committee of railroad presidents had moved upon Washington to seek a doubling of the \$300,000,000 revolving fund for the purchase of equipment and other needs portended an active campaign to improve the facilities of the country's roads.
