

POLITICIANS ARE BLAMED FOR COST OF COTTON GOODS

Head of Jobbing House Declares Administration Has Stalled Investigation of Profits of Growers

Chicago Tribune-Omaha Bee Leased Wire. Chicago, May 7.—Responsibility for high prices in cotton dress goods rests upon political meddling, according to I. B. Schreiber of the firm of Schreiber & Sobel, one of the largest cotton and woolen dress goods jobbing houses in the west. Mr. Schreiber added that instead of coming down, the prices of cotton goods will advance.

"A few years ago we were told by the administration 'to buy a bale of cotton' and so save the southern growers. At that time the planters were getting 10 cents a pound and that is the price we paid. We were told at the time that if the planters could only get 12 cents a pound they would be saved. Now they are getting 42 cents a pound and investigations of that price have been forestalled by politicians—while here in Chicago little dealers in potatoes and sugar are being indicted as profiteers."

"It is said the big reductions in the price of silk will force down prices on cotton goods. With present prices on raw cotton, I do not see where these hopes can materialize. Buyers who are laying in stocks for 1920 are paying 70 per cent over the present prices for sheer cotton goods."

Mr. Schreiber denies that wholesalers and jobbers in cotton goods are guilty of profiteering. "I am told that an investigation made last winter by manufacturers of women's dresses, sold by the manufacturers at \$32.50 per garment, were retailed at from \$50 to \$100 and even higher."

Merchants are beginning to weed out their costly stocks. And not loading up at present prices. All of them expect a slump very soon and do not wish to be caught with shelves full of high-priced stocks.

Vanderlip Declares U. S. Can't Make Loans To All of Far East

Tokio, May 7.—America's best contribution to the economic readjustment of the far east will be something more than financial engagements, said Frank Vanderlip, who is visiting Japan at the head of a commercial mission, to a correspondent of Reuters, Limited, today.

"I feel," he declared, "there will be far more important things for America to do than to merely make loans, and I particularly doubt the wisdom of making loans to meet the expenses of governments and military operations. American capital can earn a large return at home, and the needs of Europe are extreme. Therefore, the east cannot expect capital to flow to it unless it offers security comparable to that offered in America and Europe, as well as a comparatively attractive rate of interest."

Prohibition Agent Arrested for Taking Bribes Totaling \$60

Milwaukee, Wis., May 7.—Investigation into charges of grafting and bribery among local prohibition enforcement officers resulted in the arrest last night of George Cowie, 35 years old, by Deputy United States Marshal William McCormick, on a federal indictment.

It is charged that Cowie accepted two bribes amounting to \$60 offered by two Racine saloon keepers to report the alleged selling of liquor.

No Change In Strike Ranks Throughout France Today

Paris, May 7.—There was no apparent change in the strike situation throughout France this morning. During the past few days a large number of extremist railroad workers have been arrested, but many of these have been released.

The executive committee of the railway workers' federation held a stormy meeting last night at which it is understood, there was strong sentiment in favor of calling off the strike if it could be done without appearing to capitulate to the government.

Miners in the northern coal fields have finally decided to strike next Monday.

American Florists Deny Charge of Profiteering

Washington, May 7.—Acting for the Society of American Florists, W. F. Gude, its Washington representative, has issued a denial of the statement by Miss Anna Jarvis, president of the Mothers' Day association, that florists profiteered in white carnations, the symbol of observance of Mothers' day, last year. Miss Jarvis had called on observers of the day this year to abandon the carnation and display American flags.

All members of the society throughout the country, Mr. Gude said, have been urged to sell white carnations at the usual market rate on Mothers' day, Sunday, May 9.

Bolshevik Resistance In Defense of Kiev Strengthened

Warsaw, May 7.—(By The Associated Press.)—Bolshevik troops fighting in the defense of the city of Kiev have strengthened their resistance considerably during the last 24 hours. The battle for the possession of the city still is raging, according to latest dispatches.

The fighting is said to be particularly severe northwest of the city. It is assumed the soviet army is bringing up artillery from east of the Dnieper river. Railroad and highway bridges in front of Kiev were destroyed by the retreating bolsheviks, but they are being rapidly repaired by the Poles.
