Made It Possible

Gilmore City, Iowa, January 16, 1920.

I am now 46 years old and want to tell what Chiropractic adjustments have done for me.

I was troubled with muscular rheumatism and chronic appendicitis for 15 years. After consulting several doctors and being advised that an operation was the only thing that would give me relief, finally went to Rochester, Minnesota, and was examined; but my condition was such that they did not think it was advisable to operate then.

When I returned I was advised to try Chiropractic adjustments, which I did. Six years have now passed since I had my last adjustment and since that time I have been perfectly well, having had no signs of any trouble whatsoever. I have gained over 20 pounds in weight and have been able to pass an examination for \$5,000 worth of life insurance, which I could not get before I had my adjustments.

Anyone affected with appendicitis should try adjustments before they submit to an operation. I shall be only too glad to answer any questions to anyone who wishes to know anything further about the results I obtained.

I am acquainted with many people who have tried Chiropractic and in every case good results were obtained.

My wife was also completely cured of a large goitre, after it had grown to considerable size and had been increasing for 12 years.

Signed, C. BIGELOW.

State of Iowa, }
Webster County } ss.

Subscribed in my presence by C. Bigelow and sworn to before me this 16th day of January, 1920.

E. H. ZUERRER, Notary Public.
