

Socialist Delegates Leave for Washington To Get Report On Debs
New York, May 15.—A majority of the delegates to the national convention of the socialist party which

closed last night left by special train this morning for Washington, where the convention will reconvene today to receive reports of committees named to confer with Attorney General Palmer and Secretary Tumulty relative to the release of political prisoners and conscientious objectors. An amendment to the party con-

stitution providing that delegates to all conventions, as well as members of important committees, must be citizens of the United States was adopted last night. The possibility of aliens gaining complete control of the party was one of the points on which the party was attacked in the trial of the five socialist assemblymen at Albany.
