

MEDAL LOADED SOLDIER IS NO HERO TO WIFE

First Nebraskan to Enlist, Thrice Decorated and Now in Hospital, Was Cruel, Says Divorce Plea.

Lincoln, Neb., May 15.—(Special.)—William Sparks, who was the first Nebraskan in the world war, having joined the Canadian colors in 1914, who was wounded at Vimy ridge and three times decorated for gallantry, was no hero to his wife of 32 years, Mrs. Alvin Sparks.

In testifying today in district court in her suit for divorce, Mrs. Sparks said that her husband warred on her in their home, beating, kicking and choking her, and laid down frequent barrages of dishes, flatirons and furniture that drove her to cover.

Tells of Earlier Marriage.

Mrs. Sparks also bared the secret of her marriage in 1884 to John Kinney, when she was a girl of but 16. She said she left Kinney a year later in Omaha, when she opened a letter to him, and found it was signed by his wife. The Kinney marriage was never annulled.

"Before and after I married Mr. Sparks, he told me we would forget all about the marriage to John Kinney," Mrs. Sparks testified. "I burned the letter from Mrs. Kinney."

Sparks Is in Hospital.
Sparks, who is in Strathcona hospital, Edmonton, recovering from wounds, has filed a cross-petition and gave his testimony by depositions. He denies non-support and cruelty and says he never knew of his wife's previous marriage.

BOLLEN ACCEPTS NOMINATION FOR STATE OFFICE

Wayne Lawyer Explains Acceptance of Place on Non-partisan Ticket.

Lincoln, Neb., May 15.—(Special.)—Following a meeting of the candidates selected by the Nonpartisan league, organized labor, "Committee of 38" and other organizations at a mass convention in Grand Island last week to represent them on an independent ticket for state offices, F. L. Bollen of Wayne, nominated for attorney general, gave out the following statement, accepting the nomination. He had previously announced that he would not be a candidate.

"I have decided to accept the nomination tendered me by the Nonpartisan league and associated delegates at Grand Island.

"The nomination came to me as a complete surprise and I was hesitant for business reason to accept. The nomination of Judge A. G. Wray of York for governor has, however, convinced me of the high principles of that convention.

"If elected to the office of attorney general I promise that I will not prostitute the office of attorney general for any political ends and I will see that a square deal is given every one. I promise I will leave no stone unturned in trying to stop profiteering in necessities of life."

CAPPER PARTY TRIP INCLUDES DAY IN OMAHA

Sixteen Representatives of Eastern Advertising Agencies Will Be Guests of C. of C. May 19.

Omaha will be host to 16 men from some of the largest advertising agencies in the United States when they arrive here May 19. A feature of the day's program will be the big noon dinner at the Chamber of Commerce.

These men are touring the west, the agricultural region, as the guests of Senator Arthur Capper and the Capper publications of Topeka, Kan. The invitation was extended by Senator Capper in the desire that the ad men realize how important an industry farming is and the chance for development that the future holds.

To Tour Eastern Nebraska.

The party will arrive in Nebraska May 18 and will tour the eastern part of the state, beginning at Falls City, thence to Lincoln and Omaha. This trip will be made by motor cars so the visitors can size up the state from close range and get in touch with business men and farmers as they travel. A large number of farms will be visited and meals will be served at farm homes.

Those who will make up the party are: W. H. Stark, George Batten company, Inc., New York City; Harold Murry, Sheridan, Shawhan & Sheridan, New York City; F. F. Hillson, H. K. McCann company, New York; Harold F. Barber, J. W. Barber advertising agency, Boston; A. M. Lewis, J. Walter Thompson, Inc., New York City; James G.

Hindle, Harry Porter company, Inc., New York City; William A. Hart, Frank Seamon, Inc., New York City; George Clauss, Moss H. Chase company, Buffalo, N. Y.; H. H. Charles, Charles Advertising Agency, New York City; L. E. Smith, Ruthrauf & Ryan, Inc., New York City; H. S. Donahue, Newell-Emmett company; C. L. Ball, Frank Presbey company; Frank Hermes, Blockman company; R. E. Plimpton, Wales Advertising company; Douglas J. Ogilvie, Van Patton company, and J. M. Campbell, all of New York.

Former Omahans Coming.
Mr. J. M. Campbell, who is one of the party, is a former Omahian man and is generally recognized as one of the national authorities on advertising. While in Omaha he had charge of the advertising for the Burlington lines and later was with Cudahy Packing company.

While in Omaha the party will visit the stock yards, wholesale districts and the business houses. Representatives of the Capper Publications from Topeka and New York City will also be in the party.

War-Widowed Woman Finds a New Mate in Far-Off Australia

London, May 15.—How Mrs. Ellen Wright, a young widow who lost her husband in the war and was left alone with two small children, has "made good," has just been told by Australian immigration authorities. Unable to obtain work and her children starving, she applied for

assistance to go to Australia to begin life anew.

"I can make good out there," she told the authorities. "I will send for my children when I am established." Three years after she went to Australia James McMahon, a wealthy Australian farmer, met her and fell in love. They were married. McMahon asked her to have the children, Earnest and Nellie, then under the guardianship of the poorhouse, sent out.

"We are perfectly happy," Mrs. McMahon wrote to her friends in London. "We want the children. I knew I could make good when I came out here. This is the only country in the world."

'Melting Movements' At Dances Tabooed By Chicago Schools

Chicago, May 15.—School dances in Chicago this summer will be of the simon-pure variety. The following set of rules have been drawn up by the High School Deans' association:

Partners face one another, six or seven inches apart (bring your own ruler), bodies parallel, shoulders parallel and heads erect.

Leader places his right hand lightly between the shoulders of the partner, keeping the right elbow well away from his body, his left hand extended, palm up, clasps his partner's right hand.

Partner's left hand rests lightly just behind the curve of the leader's shoulder; her elbow is just above the leader's, but not resting upon it.

A straight line from these hands, elbows would be parallel with both bodies.

"All wriggling and writhing movements and melting into one another's arms are taboo."

Panel or Sectional Lace

A Logical and Very Beautiful Window Curtaining

—a lace curtain properly finished and sold by the yard or strip instead of by the pair. These are so made in strips of 6, 9, 12 and 18 inches wide that they will properly curtain a window 9 inches wide or 9 feet wide. Windows of varying widths may be treated uniformly and with proportionate fullness by its use. This modern idea of curtaining originated in Switzerland, the European home of the lace curtain industry, but has been much developed and improved upon by our own lace curtain manufacturers, who now show them in a great variety of styles.

What It Will Do For You
Heats your entire house large or small, upstairs and down, old or new, city or country, flooding it with an abundant supply of pure, warm, everchanging moist air permanently free from dust, gas or smoke.
Safeguards the welfare of your family by warming your home to a comfortable temperature in any weather.
Affords you the most convenient, easiest operated, simplest regulated, safest, quietest heating, modern system you can own.
Burns any kind of fuel, coal or wood, and saves one-fourth to one-third off of your fuel bill.
Saves you many dollars in cost, compared to other types of heating systems.
Increases the value of your property more than the amount invested in its purchase.

Facts About Putting In
Requires no space in rooms, least space in basement, easiest, least expensive and quickest to install in new or old buildings; does not warm basement enough to necessitate building special chest for storage of fruits and vegetables; reduces fire risk; will last a lifetime, barring abuse.

Where It May Be Used
Homes, old or new, summer cottages, as an auxiliary to steam or hot water plants or for more economical use in Spring and Fall; churches, stores, halls, small factories, public buildings, schools, of wherever necessary to have a heating plant that draws easily.

Will It Work For You?
Manufacturer's Engineering department makes blue print plan for correct installation of each Round Oak Pipeless Furnace—preventing possible mistakes.

Your Protection
Your order for a Round Oak Pipeless Furnace is accepted with the understanding that unless the trained heating engineers of the manufacturer can safely guarantee it to operate efficiently in your home it will not be installed and we will refund any money paid. Their decision will be made after careful study of conditions in each home—no guess work. This protects all concerned. This engineering service is free. Ask us for more information about it.

Hudson Fineness Equals Its Matchless Performance

Aside From the Supremacy of the Exclusive Super-Six Motor, Its Beauty Gives Distinction in Any Field of Fine Cars

Hudson has unremittently kept the issue of performance to the fore. Not simply because its mastery is indisputable.

Rather because this question is vital above all. It must always be so. It must always be the measure of any car's title to worth.

Hence undue emphasis has never been placed on Hudson's four years' leadership in fine car sales. Largest sales are not infallibly proof of greatest merit. Hudson has no need to offer them as such.

Yet their importance cannot be overlooked. Here is the massed opinion of far the greatest number of owners of any fine car in the world. Some are driving the earliest Super-Sixes built—now more than four years old. Some acquired Hudsons but recently. But how unanimsously they hold no car can rival it.

What 90,000 Owners Know First Hand

Those who have had their Hudsons longest are perhaps its most emphatic champions. They know it best. They have seen it pitted with triumph against every situation that can confront an automobile. Today their Super-Sixes are giving service, such as is literally beyond the performance capacity of many new cars that cost more.

Certainly no fine car is so highly regarded by such a large following.

Were its position less deserved could Hudson hold the loyalty of all these? Were its supremacy less decisive, surely five years must have discovered the rightful successor.

But time only brings fresh evidence of Hudson leadership.

Its world records in speed—in power—in acceleration—in hill-climbing, have never been matched. They are official and its 7,000-mile run both ways across the continent in ten days and twenty-one hours is regarded the supreme endurance feat of motordom. No car ever equalled its time in either direction. Few have even endured to finish. None except Hudson ever completed the two-way trip against time.

See What It Has Done

A Hudson stock chassis holds the world's official stock car speed record of 1 mile in 35 seconds. Special cars embodying the Super-Six principle won more points in a single year of speedway contests than any cars that ever raced.

Now is added the confirming judgment of more than 90,000 owners who daily see these qualities expressed in the smooth, uninterrupted service of their cars.

Thousands admittedly chose Hudson because of its acknowledged prestige as leader and authority in coach design. Hudsons are famous for their beauty and luxurious appointment, not only in America, but in Europe, the Orient and South America.

But its chief appeal is in performance.

And Its Unmatched Motor Is Exclusive

And do not forget that all Hudsons have done was possible only because of the Super-Six motor. It gave Hudson 72% more power and 80% added efficiency.

The most abusive tests to which a car was ever subjected have failed to find its endurance limit. Could other types adopt it, they might share Hudson's unmatched ability. But Hudson controls it. By right of invention Hudson alone can use it.

It will not be possible to supply all who want Hudsons. So even though you may not want your car for several months, now is not too early to place your order.
