One of the neighbors that knows this friend has invited me to go with him and make a visit to the boy, who is ill. Now, would it be proper for me to go, or should I make some excuse and send my best regards to him through this friend?

B.

I believe it would be better for you just to send your regards, which you might do in a note to the sick boy. If it were an older weman friend who was making the call it would be different.

Build up for the Spring Attack! Put the body in condition for an invasion of the germs of grip, pneumonia or "Spring fever."

At this time of the year most people suffer from a condition often called Spring Fever. They feel tired, worn out, before the day is half thru. They may have frequent headaches and sometimes "pimply" or pale skin and white lips.

The reason for this is that during the wintertime, shut up within doors, eating too much meat and too little green vegetables, one heaps fuel into the system which is not burned up and the clinkers remain to poison the system-a clogging up of the circulationwith inactive liver and kidneys. Time to put your house in order.

For an invigorating tonic which will clarify the blood, put new life in the body, sparkle to the eyes, and a wholesome skin, nothing does so well as an herbal extract made from Blood and Stone root, Oregon grape root and Wild Cherry bark, which has been sold for the past fifty years as Dr. Pierce's Golden Medical Discovery. By reason of the nerves feeding on the blood, when the blood is pure the nerves feel the effect, and neuralgia or other nerve pains disappear because such pain is the cry of the starved nerves for food.

Everywhere some neighbor will tell you the good it has done:

doubtful if it would reach him.

An Unhappy Giri—Your parents seem to be too severe with you, but remember that they are your best friends and that you are very young. Be patient for a few years and you will then be old enough to trust your own judgment—which you are not, now.

Men who "KNOW" the beauty and wear of the real ENGLISH Madras are coming in fast in order to rebuild their shirt wardrobes, and if you are to enjoy seeing this FIRST showing we would advise your coming in early.

tis a mary lous portrayal of the human at the best. One beholds in its composite that a true symbol of strength. It presents layer of striking appearance in its erect carge, clear skin, sparkling eyes, strong limbs, ady nerves and firm muscles; fairly vibratr in animation – keen, alert, fresh, and rited; with an air of unbounded confidence a face radiant in only and illuminated.

Could Nature have taken you for her model? Suppose you study yourself in the mirror of the present and compare your looks, your feelings and your condition with the general characteristics of this picture of the human hody in perfect working order, all parts of which are sound, well organized and disposed, performing their functions freely, naturally. If you fall in any single point of resemblance, you are not the picture of health.
