### This Leaves the Skin Free from Hairy Growths

(Toilet Talks)

A simple method for completely removing every trace of hair or fuzz is here given. This is painless and usually a single treatment will banish even stubborn growths. To remove hairs, make a thick paste with some powdered delatone and water, spread on hairy surface and about 2 minutes rub off, wash the skin and the hairs are gone. This method will not mar the skin, but to avoid disappointment be certain you get delatone.
