## Territory West of Missouri River Soon Will Be Supplied With Rolling Stock, Says Traveling Agent.

The stock car situation is rapidly growing better in the opinion of D. D. Cutler, general live stock agent of the Chicago & Northwestern railroad, who was a visitor at the stock yards Friday. He said there were plenty of cars east of the Missouri river and that lines west of the river were commencing to get relief and that the situation would be better next week.

# Movies

Will Rogers, who is noted more for his acting than for his manly beauty, has been known to boast that he never received a "mash" note, but the other day he was favored with a communication from a movie fan beginning, "Thank God, you're not handsome, and now he says 'that's going a bit too far.'"

When "The Branding Iron" was being filmed out in the California mountains, the company waited for days on location for a fall of snow. Many of the scenes are laid in a forest clearing in the center of which is a tiny cabin, and the director wanted the snowfall to be natural. Some of the stunts look like fine paintings.

Leah Baird lost a beautiful Persian tomcat through a sailor's superstition. Permission was once received from the United States shipping board to take some scenes of "Cynthia-of-the-Minute," aboard the liner Emperor while it was lying in the Hudson river. The Persian cat was to appear in the scenes and was brought on board in a wicker cage. The cat escaped into the hold, could not be found, and has since made three trips across the Atlantic in the liner. Now the sailors are refusing to give up the cat on account of an old superstition that if a ship's cat goes ashore, the ship is in for a run of hard luck.

Major Jack Allen, widely known as producer of animal hunt and outdoor life pictures, has started his own producing company under the name Adventure Films.

"Riders of the Dawn," a picture-ization of Zane Grey's novel, "The Desert of Wheat," will be released May 30. The cast includes Roy Stewart, Claire Adams, Robert McKim, Joseph J. Dowling, Frank Brownlee and Violet Schram.

William H. Taft, former president, is the head of a new film syndicate called the American Picture association, which will make 24 patriotic features.

Bessie Barriscale has selected several of Kathleen Norris' novels as her next starring vehicles.

Priscilla Bonner, who will play opposite Jack Pickford in "The Man Who Had Everything," is the daughter of Lieut. Col. John Bonner

of the staff of General Wood. Miss Bonner also supported Tom Moore in "The Great Accident" and "Officer 666."

A Swedish picture company has induced Winifred Westover to visit that country, and star in film versions of Ibsen plays. She will sail in June.

### City May Purchase All Equipment Used By Omaha Gas Co.

The Metropolitan Water board yesterday afternoon advised Mayor Smith that it would be agreeable if the city will buy all supplies and accounts receivable of the Omaha Gas Co., at the time of the formal purchase of the gas plant on July 1.

The supplies will include gas stoves and other fixtures. The accounts receivable will amount to more than \$100,000, which will be the June bills for which the city will be reimbursed within a few weeks after municipal ownership.

A check is now being made of the improvements and extensions which have been made since June, 1918, the date of the appraisal. These improvements, together with supplies and accounts receivable, will amount to approximately \$300,000, which will be added to the appraisal amount of \$4,500,000.

## To Have Wavy Hair Like Nature's Own

Here's a brand new recipe of unquestioned merit, that you should make note of, unless you are one of the few possessors of naturally wavy hair. It's very simple, for all you need do is to apply a little liquid astringent before doing up the hair with a clean tooth brush—and in three hours you will find this has dried in the sweetest curls and waves imaginable. They will be just like "Nature's own," having no resemblance to the effect produced by a hot iron, which is so obviously artificial.

The application is really beneficial to your hair and gives it that lively lustre so much desired. As it is so easy to obtain a few ounces of the liquid astringent from your druggist—sufficient to keep the hair curly for many weeks—there's no reason now for putting up with either that straight, contrary hair or with the curling iron nuisance.

## Policeman Found Guilty On Charge of Robbery

Homer Raff, the first to be tried of six Omaha policemen, against whom serious charges are pending in district court, was found guilty of entering the home of Anna Drakulich, 2717 R street, on the night of April 14, and robbing her of \$100, in District Judge Troup's court yesterday. The penalty for robbery is from 3 to 15 years in the penitentiary.

## Slick, But He Pays.

Paul Pavocich, Thirtieth and R streets, was too slick for the South Side raiding squad. He washed his bottles and glasses so that no evidence of liquor could be found. But he was fined \$100 for selling liquor when officers testified they had bought drinks at his soft drink parlor.

# No Man Can Pull Himself Up By His Own Boot Straps

## The theory of reducing prices effectively by irrational and unreasonable reductions at retail is all bunk.

Retailers are buyers in the primary markets. You might as well try to permanently lower prices by urging increase of buying by consumers (and that is what is being done).

On the other hand note what happened: Within one week from the time the silk market broke in Japan retailers in America cut the price of silk and they will continue to reduce prices with the market and then and then only they'll stay reduced.

This argument applies to what we know as staple merchandise. Women's Coats, Suits, Dresses, etc., are quite different. We started two weeks ago to give 33 1/3% off on Suits. We announce below for Saturday a wide extension of this reduction.
