

Chiropractic is Not a Fad

It makes no claims to be a panacea for all the ills of mankind.

But it IS a curative science that goes to the CAUSE of dis-ease, and by removing the cause, makes you well.

This is not a wild unsupported statement. It is a fact that is attested to by thousands right here in Omaha—among them many of your own friends.

Statistics show that 85% of all chronic cases, and 95% of all acute cases yield to Chiropractic.

Why not investigate it for yourself. Ask about it. Consult a Chiropractor. The principle is so logical and sound and the results achieved so undeniable, that your own common sense will be your best guide.

ETHEL THRALL MALTBY, D. C.
 Chiropractor
