

TO GO DEEPER INTO PHANTOM M'ADOO BOOM

Committee to Probe Charge Democratic National Committee Agreed to Raise Big Sum.

Chicago Tribune-Omaha Bee Leased Wire. Washington, May 29.—The senate committee investigating primary campaign expenditures made up its mind to go to the bottom of charges that a syndicate of millionaire democrats in New York have agreed to put up \$10,000,000 for the democratic campaign fund, provided William G. McAdoo is nominated at the San Francisco convention.

To this end the committee summoned Wilbur W. Marsh of Iowa, treasurer of the democratic national committee; William F. McCombs, former chairman of the democratic national committee; Robert S. Hutcheon, democratic national committee member from New Jersey; William D. Jamieson, assistant treasurer of the democratic national committee.

Baruch Recalled. Bernard M. Baruch, former chairman of the war industries board and close friend of McAdoo, has been asked to return to the stand. If the testimony of these men does not satisfy the committee another list of democratic leaders will be summoned.

The decision to subpoena the democratic party leaders was made after the committee had heard the testimony of Louis Lang, a New York newspaper man, who wrote an article telling about the alleged \$10,000,000 fund. Lang said the raising of the big fund was decided upon at a meeting of the democratic national committee in Atlantic City last September. He stated that he obtained his information from Mr. Jamieson, the assistant treasurer of the democratic committee. Lang's article told of reports that Baruch and Thomas L. Chadbourne of New York had agreed to raise the \$10,000,000 with the understanding that the democratic committee drop A. Mitchell Palmer's candidacy and get on the McAdoo band wagon. Lang declined to say where he got this information.

Democrats Worried. Democrats who have been gleefully watching the disclosure of republicans' campaign expenditures began to look askance upon the investigation. They are beginning to fear that the inquiry is going to be developed into a two-edged sword and that it may hit their party just as hard as it has been hitting the republicans.

The investigation committee has decided also to press still deeper into the Palmer campaign, which it has discovered is being financed to a considerable extent by democratic politicians who drew fat fees through the alien property custodian's office. It is going to summon witnesses who can tell about charges that wide-open liquor selling is going on in Pennsylvania without interference by the federal authorities and the relation of this situation to the delivery of the democratic vote to Palmer delegates in the recent primary.

Decrees Election of Court Judges by Popular Vote

Prof. P. Orman Ray of the department of political science, Northwestern university, spoke to members of the Omaha School Forum yesterday morning in the city council chamber on "The Judiciary."
