Flying was slack several weeks ician Kirk.

He made a number of unsuccessful attempts to get work for Kirk at other aviation fields in western Iowa and eastern Nebraska.

Last Monday, reports came to Nielson that Kirk had wound up at Ak-Sar-Ben field, where he was "talking too much," as the flying exparson put it. So Nielson decided to take the ir, or mount his plane, and visit

Ak-Sar-Ben field to make Kirk "eat his words." The more he thought about it, the madder he got, the ex-preacher admitted, and by the time he had reached the field and was making

## Why the Brunswick

wins so many friends

Of the major instruments, the Brunswick was the first to play all records with faithful regard for different requirements. This feature alone created thousands of admirers. For it meant that a Brunswick owner could buy and play any record, whatever make.

Since different makes offer different artists, and no one make offers them all, music lovers saw in the Brunswick the opportunity to select their own library of records, without restriction. Today the Brunswick Method of Re-

production is a recognized triumph. It means perfected reproduction to all who know it. And the news is spreading fast. You may test YOUR Brunswick in your own home BEFORE you purchase.

## Slip Covers

-Summer the Slip Cover Season.

They not only protect the upholstery from dust and summer suns, but also reclothe each piece in the natural garb of the season. Cretogne is very largely used and when the hangings are made to coincide with the slip covers the effect is most pleasing. Sunfast materials, cotton damasks and repp, are also used, of course, and in many instances are very appropriate. One of the principal things to remember about slip covers is the fit and make; this is important, otherwise the results are disappointing. Phone us for suggestions and estimates; it does not obligate you.
