Raw land all around this place is selling for forty to sixty dollars per acre, the soil in this famous section is equally as good, and it is one of the show places of this part of the counshow places of this part of the country.

It has cement barn, sheds, granary, good frame house, and all necessary outbuildings. With building material high as it is it pays to buy a farm with the buildings on it. Here is one with improvements that you get for one-half the price it would cost today to build them.

A school house adjoins this section; think what this means to your children on cald winter days with the show a foot deep. Three hundred acres under cultivation. A fine level road leads to a good live town on the main line of the Rock Island railroad. Omaha to Colorado Springs, and Denver.
