Powerful Forces Back of General Are Making Supreme Effort to Put Their Candidate detailed legislation completed by congress including reduction of re-Across at Early Hour.

By ARTHUR SEARS HENNING. Chicago Tribune-Omaha Bee Leased Wire. Chicago, June 9.-Developments tonight in the conclaves of convention leaders at the Michigan avenue hotels foreshadowed a mighty struggle between General Wood and Governor Lowden at the opening of the battle of the ballots to nominate a republican candidate for president.

Even those leaders who believe that Wood, Lowden and Johnson will be eliminated from the contest and a dark horse named for standard bearer, were centering their atten-tion on this first test of strength between the general and the governor and participating in the maneuvering. Both the Wood and Lowden field managers were working far into the night to muster every ounce of strength for the showdown that will constitute the first stage of the fight.

#### Wood Gaining Strength.

It was evident, that Gen. Wood's candidacy was more formidable tonight than at any time since he entered the crace. It was apparent that the powerful forces enlisted under the Wood banner were making a mighty effort to round up a prospective majority of the convention and it was conceded on every side that the general is go-ing to give his allied adversaries a terrific battle. At a late hour a harmony plank framed by the subcommittee on platform had not been accepted by the ratification faction of the convention led by former Senator Murray Crane of Massachusetts, and there were open threats of splitting the party wide open, with the pros-pect of a defiant bolt by Senator Hiram Johnson of California, the irreconcilable candidate for president, taking with him Senator Borah of Idaho, who boldly declared that he would denounce the republican platform every time he addressed an American audience if the convention should adopt a plank for ratification of the treaty and league of nations with reservations.

Would Mean Third Party.

It was asserted by party leaders who gathered in excited groups about the lobby of the Congress hotel while the platform committee was engaged in its desperate effort to stem the tide of rebellion that a bolt from Johnson and Borah Inevitably would mean the formation "Where's Jim Dahlman?" of a third party and an alliance of Johnson and W.
