In contrast with the previous days of he week, very little was said concerning he probable outcome of the convention sumed that Wall street has about made up its mind that nothing startling will occur there. The fear of triumph for the ultra-radical element in the republican party has disappeared, at least so far as surface indications go, and if there were any apprehension today it was well disquised.

Call money again displayed a lack of stability, opening and nenewing at 7 per cent, mounting to 2 per cent in the afterneon and finally closing at 8 per cent. Not much attention was paid to these ternson and finally closing at 8 per cent. Not much attention was paid to these syrations for the sufficient reason that it is now thoroughly appreciated that part of it primarily district, including that part of it primarily concerned with the stock market, apparently is reconciled to high interest rates. If any there are who are not, they should be, and doubtless will be, now that the secretary of the treasury has recognized the prevailing high cost of credit by putting out his latest six months and one year certificates at 5% per cent and 6 per cent, respectively.

Price Developments Secondary. The budget of trade news included the sual weekly surveys of the iron and steel ndustry. The Iron Age notes that prousual weekly surveys of the iron and steel industry. Burglar proof---

In a recent robbery, the burglars passed up Home Builders' shares and bonds. Why? Because these shares and bonds can be cashed only by the registered owners. They would be valueless to others. Burglars do not care for documents of that kind.

It is a comfortable feeling to own something which is of value to yourself, but not to others, except upon bona fide transfer. You are always sure of keeping what belongs to you when your surplus is invested in Home Builders' shares and bonds.
