**The New York Times.**  
 Chicago, June 10.—Industrial stocks advanced while rails were heavy in dull trading and money nervous.  
 As was the case on the previous days of this week the market was dull and narrow, also the industrial list continued its usual performance by ignoring whatever unfavorable features there are in the present situation while the rails were quiet and none too steady.  
 There were no further upsetting breaks in this department though, and it looked as though the downward pressure of the western to the new dividend level had about been completely absorbed. The railroad shares were heavy and gave the impression that had there been any real attempt made to force this department would have given way easily, but there is no attempt of this sort made and the list remained stable at only fractional declines on the day.  
 The industrial group was attracted at the recent market attention was directed, especially to the iron and steel group, some new high prices for the present movement were reached. The equipment were particularly favored by the speculative activity of the morning. Money was tight, however, and the market was not so heavy as it had been in recent days and covered a range which was not particularly favorable for the iron and steel group. However, the market was not so heavy as it had been in recent days and covered a range which was not particularly favorable for the iron and steel group.  
**Chicago Grain**  
 Chicago, June 10.—Extreme weakness developed in the grain markets today after oats had jumped to a new high level, records in the wheat market were broken by a number of holders brought about the reversal. Corn closed nervous, 1-2c net lower to 1-1/4c advance, with July, \$1.71-8 to \$1.71-4, and September, \$1.64-8 to \$1.62-4. Oats finished at 21-2c decline to 11-2c gain. Provisions showed a rise varying from 7c to 10c.
