

AD CLUB MEETING AT INDIANAPOLIS ENDS WITH VOTE

Election of Officers Closes Convention—Sessions Next Year to Be Held in Atlanta.

Indianapolis, June 10.—A business session this afternoon following an inter-department meeting closed the 16th annual convention of the Associated Advertising Clubs of the World.

With the selection of Atlanta, Ga., as the 1921 convention city already announced and merely awaiting ratification by the convention, the most important business to come before the delegates this afternoon was the selection of a president and secretary-manager, both of whom will be nominated from the floor of the convention.

Among the delegates it was said this morning that there was hardly any doubt but that Parke S. Florea will be elected secretary-manager without opposition.

With regard to the choice for president, the situation was muddled.

It was rumored that there will be no nominations for the presidency until after the incumbent, Reuben H. Donnelly of Chicago, had finally decided not to accept another term.

Others who have been or are being considered for the presidency include William H. Johns, New York; Arthur G. Newmeyer, New Orleans; Merle Sidener, Indianapolis; George W. Hopkins, New York and Tim Thrift, Cleveland.

Movie Men Will Produce Films On Americanization

Cleveland, June 10.—Tentative plans to produce 52 one or two-reel pictures a year in the interest of Americanization were agreed upon at the convention of the Motion Picture Theater Owners of America. The scenarios will be written by well known authors and acted by stars. One will be released to theaters each week.

The convention was scheduled to end today.

Consider Plans to Unseat Georgia Negro Delegate

Chicago, June 9.—The Georgia delegation decided to hold a second caucus to consider a move to unseat Henry Lincoln Johnson, the Atlanta negro, who was elected national committeeman Tuesday.

The credentials committee, in passing on the Georgia contests, unseated a Johnson delegate and plans then were formed to call the delegation together with a view of unseating Johnson.

Sixty Seized Whisky Stills Are Destroyed

James H. Hanley, prohibition director for Nebraska, and his law-enforcing agents destroyed more than 60 "moonshine" stills yesterday.

The stills were seized by federal agents, most of them in Omaha. They range in size from tea kettle to copper boiler.

Agents also confiscated hundreds of gallons of mash and dozens of gasoline stoves which are used to boil mash into alcohol. The stoves will be sold to second-hand dealers. Copper from the demolished stills will be sold for junk.

The picture shows the illicit stills seized by federal agents and police. The agents who destroyed the stills are: B. F. Lynch, Wallace Wilson, P. J. Ford and James Hanley.

Insurgents In Albania Attack Italian Troops

London, June 10.—Fifteen thousand Albanian insurgents attacked the Dunkati bridge on the Voysua river and captured a party of Italian carabinieri, according to a dispatch from Rome to the Central News today quoting the Brindisi correspondent of the Giornale d'Italia.

The telegraph and telephone lines were cut and shots were exchanged with Italian troops who are organizing to attack the insurgents, the dispatch adds.

LABOR REJECTS PLAN TO UNITE FOOD WORKERS

Federation Convention Committee Turns Down Proposal to Organize Union.

Montreal, June 10.—The American Federation of Labor, in annual convention here today, rejected a proposal to create a permanent educational department to distribute propaganda urging support of the federation's policy of nonpartisan ship in politics.

The delegates unanimously adopted a report of the committee on organization which recommended that this step proposed by the Central Labor union of Poplar Bluff, Mo., not be taken at this time, because it was unnecessary and would entail unjustified expense. The proposal included provision for a large campaign fund.

The organization committee refused to concur on a resolution presented by the Chicago Federation of Labor, which urged the executive council to appoint a special committee to investigate the feasibility of combining all workers in the food and catering industry of America into a food producing and distributing department.

Max Hayes of Chicago declared that the "gigantic hotel interests" of the country had combined against union workers and must be met by a similar organization.

The convention authorized the executive council of the federation to charter an international policeman's union as soon as the membership of local policemen's unions totals 6,000. A petition that an international union be chartered was presented by the Oklahoma City local.

The Best Way

To get strong and to keep well is to help Nature rebuild and repair the wear and tear upon body cells. Food is not always sufficiently digested or properly assimilated. The best medicine is that which builds up, not merely braces up. This is why Father John's Medicine's success results, which have caused its steadily increasing use for over sixty years.
