

MAN IS KILLED, WOMAN INJURED IN AUTO CRASH

Nocturnal Joyride With Woman, Who Admits She Is Married, Ends Fatally For Salesman.

B. F. Hutchins, 38 years old, Omaha real estate salesman, was instantly killed early yesterday morning, and a woman, who refused to reveal her identity, was slightly injured, when the automobile in which they were riding turned turtle on the Arlington highway, three miles east of Fremont. Hutchins was associated with C. W. Martin & Co. with offices in the Omaha National bank building.

Hutchins' neck was broken when he was caught beneath the car. The woman was held helpless for nearly an hour, crushed beneath the weight of the heavy car. Wilder Bikeslee, 22 years old, Fremont student at the University of Nebraska, found the accident victims. He called medical aid and then assisted in removing the woman and the body of the man from the wreckage.

Charges Are Filed Against Stutz Head By Stock Exchange

New York, June 11.—Allan A. Ryan, banker and chairman of the Stutz Motor Car company, announced today that charges had been preferred against him by the New York Stock exchange, of which he is a member, as a result of the tangle arising over the removal of Stutz shares from the exchange last March.

In making public a copy of these charges Mr. Ryan declared them "ridiculous on their face." He in turn charged the exchange with "defiance of public opinion and autocratic disregard of the public interest" and again asserted that the Stutz investigation was in the nature of a "picked jury."

The correspondence includes a letter from E. V. D. Cox, secretary of the exchange, stating that Mr. Ryan, in the opinion of the governing committee of that institution, "has been guilty of conduct and proceedings inconsistent with just and equitable principles of trade."

Indictments Against American Woolen Co. Quashed by Court

New York, June 11.—Indictments charging profiteering against the American Woolen companies of New York and Massachusetts and William M. Wood, president of the corporations, were quashed today by Federal Judge Mack.

Judge Mack sustained a demurrer interposed by Charles E. Hughes, special counsel for the defense, which held that woolen goods did not constitute wearing apparel and therefore did not come within the meaning of the Lever act.

Abandonment of Spa Conference Looms as A Possibility Now

London, June 11.—Possibility of the abandonment of the Spa conference between representatives of the allied governments and Germany is being discussed in European capitals.

The success of the independent socialists and the conservatives in the German elections leads to the belief in France that Germany is less than ever inclined to carry out the treaty.

This belief, with prospect that Giolitti, former Italian premier, will form a new ministry in that country, is said to have moved Premier Millerand of France to oppose any further yielding on the question of the German indemnity such as might be expected to result from the Spa meeting. It is recalled that Signor Giolitti opposed Italy's entrance into the war, and it is said his foreign policy includes resumption of full relations with Germany.

Premier Millerand said that he might hazard his own position if the Spa conference were held and belief is expressed here that Signor Giolitti may decline to attend the meeting.
