Are the Signs of the Zodiac Con-nected with the Almanac? (Copyright, 1920, by the Wheeler Syndicate, Inc.)

Almanacs, or volumes of miscellaneous information relative to time and the seasons, always include the nude figure of a man surrounded by the signs of the zodiac because of the ancient belief that the twelve constellations of the heavens-corresponding roughly to our present monthsexerted some mysterious but well-defined influence over certain parts of the human body, This belief was formerly so prevalent that persons, before consulting their physicians about their ailments, would look in the almanac to see whether the phase of the moon and the stars was propitious to the treatment of the particular part of their body which was diseased.

This custom dates from about 1300 and 1ed to the imprinting of the figure of the "moon's man"the familiar nude figure surrounded by the signs of the zodiac—upon all almanacs. As shown by these imprints, the constellation of the Bull was supposed particularly to influence the neck; the Crab held sway over the lungs and heart; the Scorpion referred to the groin and the Goat to the knees. The constellation of Pesces, the Fish, guarded the feet, while the Waterbearer watched over the calves and the Archer over the thighs. The Scales of Justice protected the fore-arms; the Lion, the biceps; the Twins, the houlders and the Sheep, the

Why Be Skinny

It's Easy to Be Plump, Popular and Attractive

It's easy to be plump, popular and attractive instead of being thin, angular and scrawny. Almost invariably the trouble is due to weak nerves and consequent failure to assimilate your food. You may eat heartily, but owing to the lack of nervous energy and impoverished blood you don't get the benefit from the food you eat. All of this can be remedied very quickly by taking with each meal a fivegrain tablet of Blood-Iron Phosphate. This quickly strengthens the nervous system, enriches the blood and increases its oxygen carrying power, and in a remarkably short time the average thin, weak, nervous man or woman begins not only to put on flesh, but also begins to look and feel better. Sleep, appetite, strength and endurance are improved, dull eyes become bright, and, unless afflicted with some organic complaint, there is no reason why, if you take Blood-Iron Phosphate regularly, you should not soon look and feel much better and many years younger. Deposit \$1.50 today with Sherman & McConnell Co. or any other druggist for enough Blood-Iron Phosphate for a three weeks' treatment. Use as directed and if at the end of three weeks you aren't delighted, go back and get your money. Your druggist, a man you know, is authorized to give it to you. money. Your druggist, a man you know, is authorized to give it to you.
