came, Take was very busy getting breakfast for the emperor and empress. She was so busy she couldn't stop. "It wouldn't be polite for me to have my breakfast before the emperor and empress have theirs," she explained.

Her mother smiled. "Very well," she said, "you may get their breakever happens."
So Take had Morning Glory

place the tiny lacquered tables before the emperor and empress. She put some rice in the little bowls on the tables. She placed some toy chopsticks on the tables, too. Then he made Morning Glory bow and crawl away from the august presence on her hands and knees! wouldn't be at all right to stay to see them eat," she said.

Just then Taro came in, rubbing his eyes. He was still sleepy. "Oh, Taro," cried Take, "look at v new house!

Taro didn't think much of dolls, but he liked that house just as much as Take did. When he saw the little stove with its play ket- drews. tles, he said: "Why don't you have a real fire in it?" "Do you think we could?" Take

Of course, they were never, never allowed to play with fire, but be-cause it was Take's birthday the mother said, "Just this once I will sit here beside you and you may have three little charcoal embers from the tobacco-ban to put in the

The tobacco-ban is a little metal box with a place for a pipe and tobacco. It always had a few pieces of burning charcoal in it, so that the father could light his pipe any time he wanted to. The mother sat down beside the tobacco-ban. She let Taro take a pair of tongs, like sugar tongs. He put three pieces of charcoal in the tiny stove.

"I can make real tea!" cried Mr. Webster, who asks the D. A. R.

She got some tea leaves and put Mayflower, collegiate alumni and

Does the Compass Needle Indicate the North? (Copyright, 1920, by the Wheeler Syndicate, Inc.)

All magnets have two "poles"the positive, or blue, pole and the negative, or red, pole. The red pole of one magnet will attract the blue pole of another and vice versa. So it follows that one red pole will repel the othe:

The earth or globe being a natural magnet also has its two poles-the North Pole being the positive or blue and the South Pole the negative or red. A compass-needle is nothing but a bit of magnetized steel, of which the red pole is constantly seeking the blue pole of the earth. The end of the compass-needle which points northward is sometimes erroneously referred to as the 'north" end or pole, while it is in reality the south end or red pole which is attracted to the blue pole of the earth.

(Here's a chance to make your wits worth money. Each day The liee will publish a series of questions, prepared by Superintendent J. H. Beverlige of the public schools. They cover things which you should know. The first complete list of correct answers received will be rewarded by \$1. The answers and the name of the winner will be published on the day indicated below. He sure to give your views and address in full. Address "Question Editor." Onusha Bee.) It should be remembered, however, that this pole of the magnet does not point due north because it is attracted, not by the North Pole of the earth, but by the "Magnetic Pole"-a point located 1. Special Notice To Friends and Customers

Omaha, June 15th, 1920.

Owing to the recent demise of our beloved President, Mr. Joseph Hayden, we feel that it is due to our many friends and customers that we make some definite statement of the future policy of Hayden's.

Hayden's has been brought, during thirty-three years, to its present enviable position in the eyes of the public, through the conscientious, untiring efforts of men whom we admire, reverence, if you will-as peerless merchants-kings among men. Our late lamented President, Joseph Hayden, was unquestionably an exceptional man among men, dearly loved by his associates and employes, implicitly trusted by all, his keen business judgment and unswerving integrity acknowledged and admired throughout the business world, and the policies which he so painstakingly and accurately worked out, tested and perfected, during the past many years, will unquestionably and unalterably be adhered to by the present management.

Hayden's will be continued as Hayden's under the present management, with an assurance to every customer of the same courteous, fair treatment—the same strict adherence to the principles of square dealing, offering and delivering only dependable merchandise, at the lowest possible margin of profit. The same absolute guarantee to every purchaser, of satisfaction, or money back-in fact, the same high principles of merchandising which have made "Try Hayden's First" the watchword of thousands upon thousands of careful, thrifty buyers throughout Nebraska and adjoining states.

Below I am publishing Mr. Joseph Hayden's last letter to the public, which clearly states his convictions along certain lines.

Thanking all for the unswerving confidence in Hayden's, which continued and unprecedented increases in selling signify, we are

Respectfully,

HAYDEN BROTHERS.

Joseph Hayden's Last Letter, Prepared for Publication Sunday, May 29th, 1920.

How Hayden's Low Cash Prices Stood the Test

Omaha, Neb., May 29th, 1920.

It is of the highest significance that during the past two weeks-a period marked by special offerings on the part of credit houses-Hayden's did by far THE LARGEST VOLUME OF BUSINESS IT HAS EVER DONE FOR THE CORRESPONDING

Hayden's offered NO MORE REDUCTIONS THAN THOSE IT HABITUALLY GIVES by reason of the saving possible under Hayden's cash plan.

But the cash plan does the business for merchant and cus-

Mechanical Details in terms of satisfaction

As one sits at the wheel of a Pierce-Arrow he does not think of Dual Valves, double ignition, or improved transmission. He is conscious only of a perfect, powerful, silent, flexible mechanism that responds like a flash to every touch -that springs to safety in a pinch. climbs heart-breaking hills without a hint of weakening, stops down to a three-mile-an-hour crawl, then leaps to seventy-five without shift-

That is the Pierce-Arrow idea—to make a machine so perfect that you think of mechanical details in terms of comfort, safety and enduring
