To Have Curly, Wavy Hair "Like Nature's Own"

In three hours you can have just the prettiest curls and waves! And they remain a long time, when liquid silimrine is used before doing up the hair. When the hair is combed out it will be nice and fluffy. Silimrine is perfectly harmless, of course, and is easily applied with a clean tooth brush. It can be obtained at drug stores and at toilet counters generally, directions accompanying each bottle. It serves also as a splendid dressing, keeping the hair soft and glossy.

Silimrine is fine for the outdoor girl, as it prevents the hair from stringing about the face and neck, even when the day is quite warm and windy.
