Its increase during the last 10 years has been exceeded only by New York. Chicago, Detroit and Los Angeles.

With announcement of the populations of Cleveland and Detroit, the definite ranking of the country's 18 largest cities has been established. New York and Chicago remain first and second largest cities, respective ly. Philadelphia is the only one of the 18 whose 1920 population has not been announced, but it is not likely that the Pennsylvania city's rank as third largest in the country will be changed. Detroit had jumped into fourth place and Cleveland into fifth position, forcing St. Louis into sixth, Boston into seventh, Baltimore into eighth and Pittsburgh into ninth places.

Los Angeles is Tenth.

Los Angeles, with a largest rate of growth, advanced from 17th rank to 10th and displaced Buffale as well as attaining the honor of being the largest city west of St. Louis. San Francisco retained 11th rank and Buffalo dropped from 10th to

Sellers of offers on September were forced to protect themselves on the way up. Country offerings of new grain increasing with 15,000 bushels No. 2 white bought at 91c, track Chicago, shipment by August 20, or about 7c over the Sep-tember at time of sale. Sample values were 120 c, higher with premiums firm.

Rye Premiums Lower. Premiums on cash rye were sharply lower with No. 2 sold at 19c over, against 18c over a few days ago, and purchases were made to arrive at \$2.22. Colorado. lsc over a few days ago, and purchases were made to arrive at \$2.22. Colorado, South Dakota and Wisconsin sold grain to arrive, and Illinois offered new rye for July shipment. Figures were firmer with other grains with a scattered trade. Some selling for foreign account early. Receipts, 2 cars.

Barley prices were unchanged, although mixers and feed dealers bought a few cars of low grades. Malting demand, slow. Spot sales were at \$1.45@1.55. Receipts, 8 cars.

Cash wheat prices c. f. f. Georgian bay were firmer with 20.000 bushels sold at \$2.92, and later in the day \$2.93 was bid. At the gulf bids were \$2.90 with \$2.93 saked, demand being slow.

New York bids \$3, track, there for 20-day shipment. Offerings of new wheat increasing with Illinois asking for bids for July shipment. Offerings of spot wheat at Chleago were very small with a car of No. 5 northern sold at \$2. Receipts, 4 cars. Minneapolis and southwestern markets practically unchanged.

Evaporated Apples and Dried Fruit.

New York, June 18.—The market for coffee futures was irregular today and consisted largely of near month liquination which included exchanges of July for later deliveries. At the start July was 2 points higher on a flurry of covering, but the demand was soon supplied and the price later broke to 14.18c or 6 points net lower. Later months opened unchanged to 5 points lower with December selling at 14.10c during the early trading and showed little further movement. The close was net 5 points lower to 1 point higher. points and sizeable fractional advances occurred among other divi-dend-paying carriers, but the more with No. 2 yellow about 101/2c over gether with a number of specialties. the July. Receipts were 143 cars. These advanced one to five points and the momentum gained in the last hour was sufficiently great to prevent anything more than a pause in the rise when call money rose from 7 to 9 per cent just before the end of the session.

A factor in the tightening of demand funds was evidently the payment of \$50,000,000 by subscribers to the Belgian government loan. The turnover of stocks was considerably greater than the day before, which is not saying much when last winter's million share sessions are considered.

More Confidence Shown.

The short interests presumably felt that their inability to get prices down earlier in the week made discretion the setter part of valor in the light of news likely to affect sentiment. The declaration of the usual Great Northern preferred dividend for the quarter, to sether with a similar declaration by the Northern Pacific directors on Thursday, converted an uncertain situation into one of more confidence.

Today's crop forecast fram Kansas and Nebraska indicated a yield of winter wheat perhaps 25,000,000 bushels in excess of earlier estimates for these states and weather reports in other grain localities were favorable for the week. The rotton market scored an advance, buytites were favorable for the week. The cotton market scored an advance, buying being predicted on weather statements which told of too much rain, but a summary of conditions in the wheat and corn beits shows that the last ten days have been favorable for growing plants and the putting is of late seed.

Exchange Props.

Sterling exchange, rather unexpectedly shaded downward today, despite further information about pending gold imports. Evidently, traders were not certain that incoming metal would be for British government account inasmuch as the impression prevalled in banking quarters that \$8,00,000 or so to be received in the next few days would be sent from Ottawa for the account of the Canadian government. An interesting item in the foreign news was that American bidders had been successful at the London gold auction market this week. These sales are usually small and have not thus far had any material effect upon exchange. Sterling declined a hair cent, but French rates were firm and Italy repeated the now familiar process of recording a sizeable gain.

Domestic silver remained at the pegged price of 98½c per ounce, but there was a decline of a cent in the foreign silver quotation to 95c. This reaction at the same time that the London quotation at 43% pence per ounce, presumably was a natural reverse, caused by too rapid an attural reverse, caused by too rapid an attural reverse, caused by too rapid an Exchange Drops. same time that the London quotation at 43% pence per ounce, presumably was a natural reverse, caused by too rapid an advance the day before when the market first responded to the arrangement between the director of the mint and domestic silver producers to purchase the product of American mines and refiners at \$1 per onunce.

Boston Wool.

Boaton, June 18.—The Commercial builtetin wil say tomorrow:

"The wool market is still waiting devolopments. Very little business has been to done here or in the west and quotations are largely nominal still. Some consignments are reported from the west.

"The manufacturing situation also is very uncertain and mills are running stherally on three to four-day schedule per week; some time less.

"The foreign markets have steadled somewhat on the lower London basis."
