

Facts for Sick Women

Reliable information
All American women know of the great success of Lydia E. Pinkham's Vegetable Compound in restoring to health women who suffered from ailments peculiar to their sex, yet there are some who are skeptical and do not realize that all that is claimed for it is absolutely true—if they did, our laboratory would not be half large enough to supply the demand, though today it is the largest in the country used for the manufacture of one particular medicine.

The Facts contained in the following two letters should prove of benefit to many women:

Buffalo, N. Y.—"I suffered with organic inflammation and displacement. When lifting I had such pain and bearing down that I was not able to stand up, and it hurt me to walk or go up or down stairs. I was going to a doctor without any results and he said the safest thing would be to have an operation. I met a lady who told me she had three operations and was not well until she took Lydia E. Pinkham's Vegetable Compound. I felt relief after taking two bottles of Vegetable Compound and I kept on with it until I was cured. I always use Lydia E. Pinkham's Liver Pills and they are fine. Everything need to turn sour on my stomach and the Liver Pills relieved that."—Mrs. A. ROANE, 203 Fargo Avenue, Buffalo, N. Y.

Sacramento, Calif.—"I had organic trouble and had such terrible pain and swelling in the lower part of my side that I could not stand on my feet or even let the bed clothes touch my side. I gave up my work thinking I would not be able to go back for months. My mother advised me to take Lydia E. Pinkham's Vegetable Compound as it had saved her life at one time, and it put me in a wonderful condition in a couple of weeks, so I can keep on working. I work in a department store and have to stand on my feet all day and I do not have any more pains. I surely recommend your Vegetable Compound to all my friends and you may use those facts as a testimonial."—BERTHA J. PARKER, 3320 M St., Sacramento, Calif.

Income From Endowment Will Be Used to Maintain Professorships of Research at School.

Ithaca, N. Y., June 23.—A gift of \$500,000 by August Heckscher of New York City for the endowment of research in Cornell University was announced by President Jacob Gould Schurman at the university's fifty-second commencement today. The income of the fund will be used to maintain professorships of research. Such professors will be relieved of routine teaching and details of administration. They will be free to devote the best of their energies to scientific investigation and incidentally to the training of future investigators. The aim of the foundation, President Schurman said, would be to discover men of great promise in science and learning and to give them an opportunity to engage in research.

At this commencement the university conferred 685 first degrees and 65 advanced degrees. The certificate of war alumnus was today granted to 39 men whose services in the world war prevented their earning a regular degree.

The university also, inscribed on its rolls as war alumni the names of 110 men who enlisted as undergraduates and who lost their lives in the service.

President Schurman today ended his administration of more than 28 years. His resignation, which was accepted by the trustees February 28, took effect today.
