

FEAR SPREAD OF RABIES THROUGH COUNCIL BLUFFS

Prevalence of Mad Dog Scares in Past Week Causes General Alarm; Four Persons Bitten.

Prevalence of reports of Bluffs persons being attacked by dogs believed to be mad has resulted in general alarm throughout the city. Fear of the spread of hydrophobia is evident in many districts. Four persons have been bitten and many more dogs, believed to have been infected with the dread disease have been killed by police.

Mrs. Charles Ellison, Twentieth street and Eighteenth avenue, told police that her little girl had been bitten by a dog belonging to a family living at 1725 Eighth avenue. She wanted the animal killed.

Harry Timberman, 500 East Broadway, asked police to take care of a dog belonging to Mrs. E. E. Hart. He said the dog had attacked him and bitten him on the leg.

Willard Simpson, 12 years old, 1508 Fifteenth avenue, was bitten by a bulldog belonging to Pearl Lane, 1703 Fourteenth avenue. Other boys had tormented the animal, according to the owner, and it broke its chain to attack the Simpson boy. It was killed and held for examination by medical authorities.

Police killed three dogs in the vicinity of Seventeenth street and Avenue I and J. All were said to be infected with hydrophobia. Another animal suffering with rabies had attacked them two weeks ago, their owners said.

Leroy Hartman, 6 years old, 1238 East Broadway, still is taking daily treatments of serum injections to prevent his contracting the disease as the result of an attack by a mad dog recently.

Sugar Selling at 25 Cents Per Pound in Philippines

Washington, June 27.—Senator McNary of Oregon received a cablegram from the acting governor general of the Philippines, denying reports that refined sugar was retailing in Manila at 5 cents a pound and that large quantities were stored in warehouses. The cablegram said the retail prices was 25 cents and that the stock on hand would be shipped by the middle of this month.

ACTION ON PALMER DELEGATION MAY CAUSE UPHEAVAL

Unseating of Smith-Watson Group Arouses Georgia Chairman.

Chicago Tribune-Omaha Bee Leased Wire. Atlanta, Ga., June 27.—The action of the democratic national committee at San Francisco in seating the Palmer delegation over the Hoke Smith-Tom Watson group, if it is upheld by the convention, will cause "hell to break loose in Georgia," to use the language of Chairman Flynn of the state democratic executive committee. The Smith-Watson delegates were chosen by a regularly called state convention in which the Palmer delegates were in a minority of about 100 votes. In addition the Smith-Watson delegates represented more than 50,000 popular majority over the Palmer men.

The Palmer delegates, however, represented a bare plurality of county unit votes and because of this claimed the right to name the entire delegation to San Francisco. They took part in the state convention, however, voted on every proposition and were regularly defeated by about 100 votes. After the convention adjourned the Palmer forces held a meeting and named the delegates which the national committee decided to put on the temporary roll. This result was expected because Clark Howell, whose seat is involved, and A. Mitchell Palmer have long been members of the national committee and their influence was expected to sway that body.

Should the convention sustain this action it will mean one of the bitterest fights Georgia has ever known. Former Senator Hardwick has already announced for governor, supported by Thomas E. Watson, on an anti-Wilson platform and there will probably be anti-administration candidates for congress in every district. The vote in the presidential preference primary showed a vast majority of Georgians opposed to Palmer and the covenant of the League as submitted by President Wilson, and the seating of the Palmer delegates, who represent a small minority in Georgia, is expected to intensify this opposition.

Select Resolute for Race. Newport, R. I., June 27.—The sloop Resolute was selected by the committee on cup defense of the New York Yacht club to defend the America's cup against the Shamrock IV. The first race will be sailed off Sandy Hook on July 15.

JENKINS IS GOING AHEAD WITH PLAN FOR M'ADOO BOOM

Kansas City Editor to Uncork Enthusiasm at Convention Despite Requests of Candidates.

Chicago Tribune-Omaha Bee Leased Wire. San Francisco, June 27.—The Rev. Burris A. Jenkins, Kansas City pastor and editor and once a sailor before the mast out of this port, reached San Francisco Saturday with the speech nominating McAdoo, which he refused to forego delivering even at the behest of McAdoo himself.

Despite the formal withdrawal of McAdoo, and his wife to the Kansas City editor begging him not to mention his name in the convention, Doctor Jenkins has been keeping in close touch with Daniel A. Roper, generalissimo of the federal job holders, and is going right ahead with his plans to uncork the McAdoo enthusiasm on the eve of the balloting.

"I realize that Mr. McAdoo feels as if he should not get into the fight," said Doctor Jenkins, "but I am going to place him in nomination because I and thousands of other people think he is the best man the democratic party possibly could run for president."

"How many votes will McAdoo have on the first ballot," Doctor Jenkins was asked.

"You'll have to ask Mr. Amidon," replied the editor-pastor, referring to the national committeeman from Kansas who is directing the McAdoo maneuvering.

"McAdoo will have 350 votes on the first ballot," said Mr. Amidon.

Doctor Jenkins said he favors David R. France of Missouri, former ambassador to Russia, as running mate for McAdoo. Some other McAdoo boomers are for Governor Stewart of Montana. For the vice presidential nomination.

Ord Majors Install Officers. Ord, Neb., June 25.—Friday night at the Masonic temple the following officers of the Masonic lodge were installed for the coming year: Claude A. Davis, W. M.; Dan Huff, S. W.; Archie Bradt, J. W.; Frank Johnson, S. D.; Will McLain, J. D. A banquet was served to the members following the installation.

HARDING'S COOK IS MOST ELATED AT HIS FORTUNE

Inez, Queen of Senator's Kitchen, Prepares Self for Moving Day, March 4.

Washington, D. C.—"Mah man's done got it!" Warren G. Harding, republican nominee for president, is her "man," and Inez P. McWhorter, "his cook," is dreaming now of the day when she will preside over the pots and pans in the White house kitchen.

From the back porch of the nominee's Wyoming avenue home that Saturday night when the glad news was telephoned to Inez that loyal member of the Harding household sounded a clarion note that reached all the kitchens for a block round.

Her shout brought stout Hattie Jeffries, who cooks at the Siamese legation, in the same block, running as fast as her 200 pounds would allow, and Inez enjoyed her first social triumph.

Thoughts of the White house kitchen hold no fear for Inez. She was up bright and early next morning preparing biscuits for the Harding household as usual. In fact, she is just as anxious as Senator Harding to take a crack at the new job.

"Lawdy, chile, since de senator done got elected at Chicago I ain't had a minute to call mah own," Inez reiterated for the tenth time.

"What 'traid o' dat job? You jes' don't know me! I guess I could cook jes' as well down there in the big house of President an' Mrs. Harding as I have filled de bill here for over a year for Senator and Mrs. Harding."

Inez is "chief cook" in the Harding household and takes pride in the fact that she "helps about de house."

She is just as confident as the G. O. P. that her "man" has clinched the election in November, and she is impatient to stand in the center of the spacious White House kitchen and "boss" the cooks and scullions. Being chief cook at the White House is like being "first lady of the land" in Inez's social world, and today she is the envy of all the kitchen empresses in Washington.

Geneva Women Make Strong Bid for New Passenger Station
Geneva, Neb., June 17.—(Special.)—During a trip over the Northwestern lines this week, Assistant Superintendent C. H. Reynolds of Norfolk, spent half a day in Geneva and met city representatives interested in securing a better station at this point.

San Francisco Throws Down Bars to Visitors

(Continued From Page One.)

for the moment when they expect it will be made clear to the convention that neither Cox nor Palmer can be nominated. They believe they have succeeded in prevailing upon those who want to place McAdoo in formal nomination to forego such action and let him be presented as a candidate when Alabama casts her first ballot for him.

Three Leading Candidates. If the Cox and Palmer forces can have their way they will prevent McAdoo from occupying a strategic position in the rear. They contend that the elements for him make of his cause a candidacy which the convention must consider at the outset. The condition presents three leading candidates as was the case in the republican convention. The Cox forces in particular are determined that McAdoo shall not be the Harding of the convention.

Although the administration forces claim complete control of the convention, this is challenged and by men who disclaim any anti-administration attitude. There was attempted evidence today of an attempt to displace the administration selection of Senator Glass of Virginia as chairman of the resolutions committee. Those with him were claiming as high as 24 votes for Senator Walsh of Montana, who has the backing of Bryan.

Senator Robinson of Arkansas has become the 11th hour choice for permanent chairman. Chairman Homer Cummings announced today that Pauline Colby, secretary of state, would step aside in favor of Senator Robinson.

"Senator Robinson has been a steadfast friend of the administration and its policies," said Chairman Cummings, "and the delegates

Anti-Saloon Leader Urges Bryan to 'Let Well Enough Alone'

Washington, June 27.—William J. Bryan was urged to let well enough alone on the prohibition question in a telegram sent him tonight by Representative Ushaw, democrat, of Georgia, a former vice president of the Antisaloon League of America.

"I find leading life long dries on every side," said Representative Ushaw's message, "who feel in view of the supreme court decision that it is best for the cause and the party to accept and assume the prohibition question closed by congress and the court. I believe your supreme triumph will not be to put a dry plank in, but to keep a wet plank out."

New York Man to Draw State House Plans

(Continued From Page One.)

the plan of Mr. Goodhue was far superior to those of any other architect.

The commission expects to begin as soon as Mr. Goodhue can come to Lincoln to work upon the plans and secure a completion of the same as soon as possible.

Those Who Competed. The plans submitted makes a tower to the building 400 feet from the street level. The present dome is less than 200 feet high. The names of those competing were: Bliss & Faville, San Francisco; Ellery Davis, Lincoln; Bertram G. Goodhue, New York; John McDonald and Alan McDonald, Omaha; McKim, Mead & White, New York; John Russell Pope, New York; Tracy & Swathout, New York; and Paul P. Cret and Zantinger, Borie & Medary, Philadelphia.

The jury consisted of Waddie B. Wood, Washington; James Gamble Rogers, New York, and Wells Polk, San Francisco.

The capitol commission is composed of Governor S. R. McKelvie, Lincoln; W. H. Thompson, Grand Island; William E. Hardy, Lincoln; Walter W. Head, Omaha, and Geo. E. Johnson, state engineer, Lincoln. The advisory architect is Thomas R. Kimball, Omaha.

It might be interesting to know, although it is not supposed that it had anything to do with the selection of the plans, that one of the plans submitted had William Jennings Bryan on the front steps looking up at the entrance.

Tartar on Teeth

Shows That You Don't Clean Them—Note These Facts

All Statements Approved by High Dental Authorities

This is to men and women who find that brushed teeth discolor and decay. Who find that tartar forms, or pyorrhea starts. You are not keeping teeth clean. You let a film remain and the damage is traced to it.

Dental science has found a way to end film. It is now embodied in a dainty tooth paste which millions are employing. We urge you to try it ten days at our cost and see the results for yourself.

That Film on Teeth Can Now Be Ended in This Way

You can feel on your teeth a slimy film, ever-present, ever-forming. That film is the great tooth wrecker. Dental science now traces nearly all tooth troubles to it.

The film clings to the teeth, gets between the teeth, enters crevices and stays. The tooth brush does not end it. The ordinary dentifrice does not dissolve it. So millions find that teeth discolor and decay despite the daily brushing.

Why Teeth Discolor

That film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

Dental science, after years of searching, has found a way to combat film. Many able authorities have proved its efficiency. For five years it has been subjected to every sort of clinical and laboratory test.

Now, for home use, it is embodied in a dentifrice called Pepsodent. Leading dentists all over America are now urging its

adoption. This week we offer a 10-Day Tube to anyone who asks. And we urge that someone in every home prove its unique effects.

Based on Pepsin

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

Pepsin long seemed impossible. It must be activated, and the usual agent is an acid harmful to the teeth. Dental science has now discovered a harmless activating method. And now everyone can fight the film with active pepsin constantly.

See What It Does

Present the coupon for a 10-Day Tube. Use like any tooth paste. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

Watch the results and read the reason for them. Compare this new method with the old. Then adopt for yourself and have your children adopt the method which seems best. This is of lifetime importance to you. Cut out the coupon so you won't forget.

Look Now

That film, to some extent, clouds nearly every set of teeth. And most tooth troubles are now traced to it.

Look in Ten Days

See how the teeth whiten—how they glisten—as the fixed film disappears. Then you will know there is a way to cleaner, safer teeth.
