

The **SKELTON**
\$1295.

Your Idea of
What a Car Should Be

Power with minimum expense in fuel consumption—instant pick-up in response to the movement of throttle—speed when emergency demands—and, above all, beauty of body lines.

These are the qualities which express your idea of what a car should be. All are successfully combined in the Skelton at a price that is surprisingly low.

Built in St. Louis—the new automobile center of America—by the Skelton Motors Corporation.

"The Car you'll
be proud of"

THE nearest approach to this new Premier has been those few ultra-distinctive foreign-built designs which, before the war, percolated into this country through New York importers. With the advent of this new Premier, America, already supreme in volume production, now steps forward and seizes from Europe her last laurel—namely, world leadership in the making of fine cars.

In Premier the spring eyes are fitted with floating Clemmons bushings and equipped with Alemite lubricating system—more positive in results than either gravity type oilers or finger operated grease caps. With a special "gun" and a twist of the wrist the whole job of oiling springs becomes a clean, simple and easy operation.

THE ALUMINUM SIX WITH MAGNETIC GEAR SHIFT

THE authoritative style of the new Velie "48" means more than the contour of its symmetrical surfaces. It includes the comfort of more room, the luxury of new appointments, the lasting mirror finish which insures its attractive, glossy appearance after years of use.

Count the good cars that have followed this authoritative model by adopting the new Red Seal 7-R motor, "the motor with a long life." The best known, best built Timken axles and Timken taper bearings.

The Velie is truly the Pattern Car of 1920.

WHY can Velie build cars of identical specifications at a less price?

Because—

They build more of them. They have been successful manufacturers for the past 25 years. They are one of America's oldest and best known manufacturing concerns. Surely this long and broad experience should enable them to build a better car for less money.

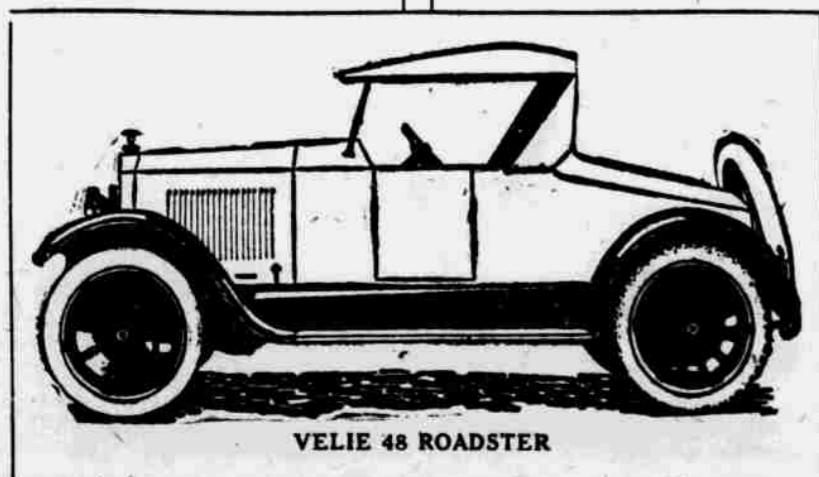

A mile of Velie-owned factory is back of every Velie.

Your dollar will buy more real automobile and less overhead if invested in the Velie.

The Velie line has a model to suit your requirements

A comparison of performance, specifications and price will convince you. Phone Doug. 8554 for demonstration.
