

### GEORGE REIM IS HELD ON CHARGE OF COAST GIRL

#### Former Prominent Automobile Man Here Retained by Los Angeles Police on Girl's Complaint.

George Reim, former head of the Cadillac company in Omaha and now president of the Reim-Thompson company of Los Angeles, was arrested in the coast city on a charge of assault against May Cosebohm of Los Angeles, according to a Los Angeles dispatch.

Miss Cosebohm told Los Angeles police she was riding in an automobile with Reim from Los Angeles to Long Beach last Monday night when Reim said he would make a detour from the main boulevard. Later, she says, he attacked her, tearing her clothes. She fled, she says, and was cared for by a man running a farm tractor nearby.

When arraigned Reim's bond was fixed at \$2,500, which he paid. Reim was organizer of the Cadillac company in Omaha. He later organized his own company to sell Peerless cars here. On September 23, 1916, his wife, Josephine Reim, sued him for divorce, alleging extreme cruelty and infidelity. He "ignored her and used vile language," she said.

Mrs. Reim was granted a divorce and \$7,500 permanent alimony on October 27, 1916. The Reims were married in Meadville, Pa., in 1904. There were no children. About a year later he married again in Minneapolis. The second Mrs. Reim before her marriage to him was Mrs. Dorothy Wagner. According to acquaintances here Reim and his second wife have lived in Los Angeles for the past two years.

The Reim-Thompson company of which Reim is president, manufactures automobile tops and is said to be capitalized at several hundred thousand dollars. Reim was a prominent figure on Omaha's automobile row for many years before his departure for the coast two years ago.

She was given to the care of the police matron for the rest of the night and returned to the Good Shepherd home this morning.

### TWO MEMBERS OF FAMILY DIE IN THREE HOURS

#### John W. Parish Succumbs to Heart Disease and Then Death Takes His Wife's Father.

John W. Parish, 58 years old, 3616 Lincoln boulevard, died at his home Tuesday night at 7:20 p. m. About three hours later John H. Hulbert, father of Mrs. Parish, died in the same home.

Mr. Parish died from heart disease, superinduced by a carbuncle, from which he had been suffering for several weeks. Mr. Hulbert had been hopelessly ill for several months.

Mr. Parish was senior member of the law firm of Parish & Burke. He came to Omaha from Ohio 30 years ago. He was president of the Happy Hollow club and prominent for years in various civic activities. He is survived by his wife and two daughters, Misses Margaret and Helen Parish, both at home.

Mr. Hulbert came to Omaha 36 years ago and entered the coal firm of Hulbert & Blum. He was an Elk and for the past 25 years was bailiff in District Judge Estelle's court. He is survived by one daughter, Mrs. Parish, who married Mr. Parish in 1899.

### \$52,000 Verdict In W. O. W. Damage Suit Held Not Excessive

A verdict of \$52,000 given by a jury in District Judge Estelle's court a few weeks ago in favor of William B. Dailey and against the Woodmen of the World, was not excessive, Judge Estelle declared yesterday in overruling a motion for a new trial by the defendant company.

The verdict was the largest ever returned for personal injuries by a jury in the district court here and was the entire amount sued for. "I think \$52,000 is not too much to pay this plaintiff for the injuries sustained," said the judge in overruling the motion. "I remember a case of a laborer who got a verdict of \$15,000 a number of years ago for injuries no more serious."

"Today when a man goes to market with \$5 and can bring home his whole purchase in his pockets, \$52,000 is no more than \$15,000 was then."

Mr. Dailey fell down the elevator shaft of the Woodmen of the World building when the elevator operator, it was alleged, failed to close the doors properly. He lives with his wife and two children at 3211 Seward street.

### TEACHERS MUST TAKE SCRIPT FOR THEIR SALARIES

#### County Treasurer Declares He Will Have to Issue Warrants as Fund Is Overdrawn.

County and City Treasurer Endres announced yesterday that there are no funds on hand in the school treasury and that there will be none on hand with which to pay Omaha school teachers' salaries next fall and winter. Payment will have to be by warrants which cannot be cashed till May, 1921, he said. "I find that there is only one thing to do and that is to pay the teachers with warrants which they will probably have to sell at a discount if they are in need of cash as most of them are," said Mr. Endres. "I have struggled along with the school fund until I can struggle no longer and the burden must now be put back where it belongs."

### Borrowed \$1,500,000

"Today I began registering warrants for school bills instead of paying cash. Whatever money comes in for the school fund from now on must go to paying off more than \$1,500,000 that I have borrowed from other county and city funds in an effort to tide over the school fund. The situation this condition brings about will be particularly hard on the city teachers, Mr. Endres said, because the banks will not longer buy the warrants which will have to be issued in payment of teachers' salaries. The warrants bear 6 per cent interest, which is too low a rate to be attractive to banks at present."

### Must Be Paid Back

In his efforts to keep on paying in cash for school bills, Mr. Endres has "borrowed" \$600,000 of money ordinarily in bank accounts, \$100,000 of water board money, \$240,000 of county money and \$750,000 of school board "site and building" fund money. These amounts must now be paid back.

The causes of the "bankrupt" condition of the school fund, as stated by Mr. Endres, are the cutting off of \$350,000, formerly received annually from saloon licenses, the greatly increased salaries of teachers and the increased cost of running the schools in every line.

### Levy Boost Needed

"I will make immediate recommendations," said Mr. Endres, "that steps be taken to ask the next legislature to increase the school levy to 60 mills instead of the present 50 mills. It will probably be necessary also to get permission to float bonds of \$2,000,000 to pay up the present indebtedness of the school fund."

It has been many years since Omaha school teachers were compelled to take warrants for salary payments and to hold them until funds became available for cashing them.

### Final Results Will Not Be Known In Chile Election Till August

Santiago, Chile, July 7.—Since the first stage of the presidential election, in which Arturo Alessandri obtained a majority of electors, has passed, Chile has settled down to await the final results, which will be known late in August. Alessandri obtained 179 electors out of 354.

Congress has dissolved and declared vacant and nullified any number of electors, and may reduce the number obtained by either, or leave both without the required majority. In such case congress must proceed to elect a president, voting only for the two contestants in the race.

Alessandri was nominated by a convention of radical and democratic parties. Barros Borgoño, his opponent, was nominated by the liberal national and liberal democratic parties, three of the moderate groups, and later received the support of conservatives. The programs of the candidates were much alike.

### PAGE SUCCEEDED BY McELVENNY AS SMELTER HEAD

#### Announcement Modified by Wife, Who Says Husband Intends to Return After a Vacation.

R. F. McElvenny has succeeded Walter T. Page as manager of the American Smelting and Refining company's plant at Omaha. McElvenny announced yesterday.

Mr. Page could not be located yesterday, but Mrs. Page said that there was no definite decision that her husband would retire as manager. Mr. Page has been in poor health since the death of his son last fall, she said, and a vacation was necessary.

"Mr. Page will probably take a vacation of six months," she said, "and at the end of that time he will decide whether he wishes to continue as manager. It is entirely up to him."

### Manager 25 Years

Mr. Page has been with the American Smelting and Refining company nearly 40 years and has been manager of the Omaha plant more than 25 years. He also is a member of the board of directors.

Mr. McElvenny has been with the company 17 years and before coming to Omaha was manager of the lead smelting works at Garfield, Utah.

"Mr. Page has not been here since July 1," Mr. McElvenny said at his office yesterday. He and other officials declined to discuss the reported change in management.

### Knows of No Plans

Mr. McElvenny said he had known Mr. Page for years and regarded him as the "dean of the smelting business." I do not know anything about his plans, but I rather suppose he will remain with the company in some capacity," Mr. McElvenny said yesterday.

Mr. McElvenny has a family and expects to make his home in Omaha as soon as he can find a house. "Housing conditions here are worse than in Salt Lake, and I thought there were bad there," he said.

McElvenny is a big, athletic fellow, apparently about 45 years old, and evidently lives much out of doors. "I am going to miss the swimming more than anything else," he said. "There really isn't much of any place to swim here and it's certainly great sport."

No change is reported in the rent controversy which exists between the Drake Realty Construction company and nearly 125 tenants of Drake Court.

Tenants reported that the company has made no overtures for a compromise nor have the tenants been served with any notices to vacate their rooms.

### FATHER-IN-LAW TELLS OF VIRTUES OF GOVERNOR COX

#### Declares There Is No Better Man in the Country For Any Job.

Chicago, July 7.—Gov. James A. Cox is certain of one republican vote in Chicago. Thomas S. Blair, president of the engineering company that bears his name, is the father of Governor Cox's second wife, and today he proudly went over the good points of his son-in-law.

"The acid test of a man comes when that man marries your daughter," said Mr. Blair. "Margaretta had been my housekeeper since her mother died. She did everything to make our home attractive and comfortable and when she was married to Governor Cox, I was happy, as I knew she had the right man."

"There is not a better man in the country for any job. I, of course, know him intimately. He is a man of the soil, a farmer at heart, which gives him that bluntness and directness which have made him famous. This is polished off by his wonderful training as a newspaper man. He will make one of the best presidents the country has ever had. We are tired of school teachers and silver-tongued orators."

"There are many who will vote for him because of his wet leanings. Our party inclinations are different, but our principles are the same."

Governor and Mrs. Cox have a baby girl, Anne, now 7 months old. Mrs. Cox, who is not yet in her thirties, was born in Pittsburgh and came to Chicago in 1892 with her father. She was educated in the Chicago schools and at Farmingham, Mass.

### INJUNCTION MIGHT CLOSE GAS PLANT, WARNING BY URE

#### Board Cannot Transfer Funds If City Can't Make Loan, He Says.

"If the restraining order against the city loaning the water board money for the gas plant should be upheld in the district court, then the Metropolitan Water board will be also without authority to transfer funds for the gas plant," said Acting Mayor Ure.

"And," he added, "if that situation should arise, then I will say that it will be serious for the gas plant, which may have to be closed. The city board must have funds to it will be unable to operate the gas plant. It was opposed to the city acquiring the plant at the appraised valuation, but now that we have the plant I intend to do all that I can to assist the water board to obtain working capital."

The refusal of the acting mayor to sign a warrant which carries a loan of \$50,000 from the city council, is not vital to the situation. Mr. Ure explained that on Thursday morning he will offer a resolution to the council, covering the same ground in such a manner that he may sign the warrant.

Mr. Ure added that the city council has authority to invest funds in city warrants or bonds and that the city could take up \$200,000 of gas department warrants, but there is a legal question whether the water board may issue warrants in this manner.
