NOTICE the character of the foam which drips from Gund's Peerless Brew. It is just like thick, rich super-cream.

Do you know what that rich, creamy foam indicates? It proves that the very richest and most nourishing barley is used as the basis of the Brew. It indicates body. It indicates tone. It shows that the Brew has been thoroughly fermented and properly aged. It reveals the fact that Gund's isn't a makeshift. It proves that it is a blood, bone and flesh builder.

Gund's Brew is one of the best drinks in the world. Instead of the artificial drinks so common these days, Gund's Peerless Brew is a pure, wholesome drink brewed from Nature's choicest materials and thoroughly fermented and aged.

It is good for anyone, even the children. As a matter of fact it complies absolutely with the "Pure Food Laws" and no doctor, however finicky, could object to it. On the contrary he would say-"Drink it."

Chill Gund's Peerless Brew to the temperature of spring water - never colder. And be sure to notice the foam, Notice how fine it is. You know now what it means. While we are not exactly advertising foam we are advertising what this rich foam means.

Try it and see how true these things are. Have a case sent to your home. Give it to your friends. It is worth while.

> Light or dark in bottles or by the glass. In cases for home use, from your grocer, delicatessen store, or distributor.
