## Nebraska Girl Is Given French Honors

A honor has come to a Nebraska girl, Miss Katherine Brenke, daughter of Prof. and Mrs. William C. Brenke of Lincoln. She is one of

the 20 American girls who have been given scholarships by the French government in the leading academies of France. Requirements included junior or senior standing in college or an A B degree, age from 18 to 20, and an instructional record in France. Miss Brenke is a member of the Alpha Phi sorority and was a member of the class of 1922, University of Nebraska.

**True Efficiency.** It used to be considered a mark of good housewifery to spend the greater part of each day in the kitchen. But now capable housekeepers and home managers are distinguished by the short length of time they spend in actual kitchen work. True household efficiency is recognized in the ability to get the best results with the least amount of enervating work.

## Planks of Women Written Into Platforms

San Francisco, Cal., July 9.—"We close our trip to the two conventions in behalf of our planks," said Mrs. Maud Wood Park, chairman of the National League of Women Voters, "with a feeling of great satisfaction over the result. We regard it as a sweeping victory for the forward-looking program of our organization. We secured about half of what we asked for at the republican convention in Chicago, and here in San Francisco the democratic convention has endorsed all of our planks but one. The plank which they did not accept was the one asking for a federal department of education, and this also failed of incorporation in the republican platform."

Mrs. Park stated the trip has been equally successful along the line of organization. Meetings were held in Omaha, Denver, Salt Lake City, Great Falls, Cheyenne, Spokane, Seattle, Portland, Reno, Los Angeles and San Francisco. "These meetings," said Mrs. Park, "will result in better working efficiency for state and national agencies. Out of it all is bound to come closer co-operation between the women of the east and the west for the accomplishment of the things women believe in."

The suffrage plank, over which there was the biggest spontaneous demonstration of the convention, according to suffragists, went through as drafted by the representatives of the National American Woman's Suffrage association and presented by Mrs. Guilford Dudley of Tennessee, third vice president of the national suffrage association.

"Speaking in my individual capacity," said Senator Glass today, "I am in favor of the platform of the National League of Women Voters for assurances of legislation having to do with child welfare, education, women in gainful occupations, public health and morals, independent citizenship for married women and increased efficiency of the home are not only wise and helpful, but seem to me consonant with the fundamentals of democracy."

"It is the most constructive program ever presented for a platform in my 41 years of political convention experience," said Charles Edward Russell, the well-known political diagnostician, at a dinner given to the writers attending the convention. He referred to the woman's platform contained in the six planks presented by the National League of Women Voters to the resolutions committee at the public hearing Monday night.

**Boiled Ham With Vegetables.** Time to prepare—two hours. Number served—five.

1 shank end ham.  
5 small potatoes.  
1 small head of cabbage, cut in fifths.  
2 turnips, cut in quarters.  
3 medium sized carrots, cut in quarters lengthwise.  
2 small onions.

Plunge the ham in a pan of hot water and simmer one hour before adding the vegetables. At the end of the first hour's cooking, add the turnips, and when these have cooked 15 minutes add the potatoes and cabbage; cook 30 minutes longer; remove the vegetables carefully so as not to break in pieces, and serve on a platter. Arrange with the ham in the center of the platter and surround with the border of vegetables.

## This Makes the Curl Stay In Your Hair

The silmerine method is unusually popular just now, according to the drug-gists. This is largely due to the warm weather and because women are now spending so much of their time out of doors. This simple method not only produces the leveling, natural looking curls and waves, but it keeps the hair in curl no matter how hot or how moist the day, or how hard the wind blows.  
All one need do is to wet a clean tooth brush with liquid silmerine, draw this through the hair before doing it up, and the hair will dry in just the sweetest waves and crinkles. This will also keep the hair beautifully soft, silky and lustrous. A few ounces of liquid silmerine will last for months.
