FORMER HEAD OF **OMAHA SCHOOLS** PAYS VISIT HERE

W. M. Davidson Now Superintendent at Pittsburgh-Suprvises 3,000 Tachers.

W. M. Davidson, former superintendent of public schools here, and now superintendent of the public schools at Pittsburgh, Pa., made a hurried visit here yesterday afternoon on his way home from the meeting at Salt Lake City.

Mr. Davidson left here nine years ago, going to Washington, D. C., for two years and thence to the Keystone state city, where he has his agitation.

his supervision.

"I think that the big problem of our public schools today," said Mr. phone."
Davidson, "is to teach the children I co the period of the world's war. The pened. I hastened to explain: inculcation of real Americanism is the thing that we are now striving for in connection with the cur-

Mr. Davidson stated that Pittsburgh has been confronted with a suspended school building program somewhat similar to the Omaha situation. He explained that the Pittsburgh school system has had \$3,000,-000 held in the banks since 1916, and will not use this money until building conditions are more favorable.

"Rago" Defies Efforts of

Police to Keep Him Captive Fifty feet of one and a half inch tral police station yesterday after-

"Rago" was so tangled up with the chain that it appeared he would choke betore he could free himself, but he was freed from the handcuffs in one minute and from the chain in three minutes.

"Bring on your locks and safes," he then cried, and began a short school of instruction for Omaha policemen and detectives in the gentle art of opening locks and safes. "Rago" is appearing at the Empress theater.

Morris & Co. Will Open Wholesale Market Today Morris & Co. opens its new whole-

sale provision market at 1309-11 Leavenworth street today. William O'Connell, branch pack-

ing house inspector for Morris & Co. throughout the country, has been in Omaha the past month supervising the establishment of the different departments of the new

ers. general offices, operating, shipstore room, and locker room for employes. A large assembly room for executive sessions is also on the

concerning my hearing those two words.

"You simply mustn't do that!" Maj. Grantland said, and his voice uneven. I felt the nervous tension held the inflection of command with which he meets all emergencies. You might get a reckless driver or anything might happen. I cannot permit it. Let me see. It is now 9:45, and our train doesn't pull out until 12:30. We can do it easily. Hastings and I will come directly for I would send Hastings-for perhaps you would rather not have me-but when it comes to a question of driving rapidly across the country after night with you in the

"I Much Prefer-"

I could not help contrasting the olicitude in his voice with the indifference Dicky had displayed toward my remaining behind. The remembrance of my husband's wish

to save Edith Fairfax annoyance seriously inconveniencing me with Rita Brown's companionship was freshly rankling with my spirit. It made me recklessly indifferent of Dicky's possible anger as I replied demurely:

"I must correct you on one point, Maj. Grantland. I much prefer that you come with Hastings." Again I heard that quick, deep inake of the breath, but his words

were perfunctory enough. You are very kind. We will start directly. But I must ask you to be ready. We have to allow for possible mishaps to the car, you

"I shall be watching for you," ! replied. "I'll not cause you a second's delay."
"Thank you," he said quietly, as

te hung up the receiver. I went back to Katie with my head in a whirl. I knew full well that if Maj. Grantland brought me to the station Dicky would be fur-iously angry, but he had so chilled verse little imp made me use the me by his own attitude that I found word "if." I knew, of course, that there was no question about securto retaliate. I had scarcely had time really to consider the possible consequences of my act before the telephone rang again. I sent Jim to answer it, for I had a little premowas partly a natural slip, yet I can- nition that Dicky was at the other not cheat my conscience with the end of the wire, and I wanted to belief that pique at Dicky did not school myself to rigid calmness before I talked to him.

Is the Rainbow Vari-Colored? (Copyright, 1920, By the Wheele

The effect which we know as the rainbow—a word derived from its shape and the fact that it is seen after a rain-is due to the rays of the sun passing through drops of water or bits of moisture in the air and being separated by these drops into the primary colors of red, orange, yellow, green, blue and violet or A similar effect, but indigo. without the bow-shape, may be obtained by placing a triangular piece of glass or a prism before the eyes and looking at it in the sunlight. The glass breaks the light up-forces the various component colors apart-and proves that the yellow appearance which we recognize as sunlight is, in

reality, made of a number of other tones, blended together. Occasionally, when the sun is quite strong, two rainbows will appear, one within the other. This is caused by the fact that the rays of the sun are reflected by the upper part of the raindrops, as well as by the lowerbut the colors of the outer rainbow are placed in preciseely the reverse position to the primary. or lower, one. The transitory rainbows, seen when a wateringcart is sprinkling the street or when a garden hose throws its spray high into the air, are, of course, due to the same cause as the rainbows in the sky. In there cases, however, the effect is usually of short duration because the moisture remains in the air for only a few moments.
