

EX-PRESIDENT OF BOLIVIA FORCED TO QUIT COUNTRY

Jose Guerra and Several Officials of Overthrown Government Are Deported by Revolutionists.

Washington, July 15.—Jose G. Guerra, deposed president of Bolivia, with a number of his ministers and other officials of the overthrown government, were deported yesterday by the new regime. The State department was informed in the first dispatch from the American legation at LaPaz since the revolution.

The dispatch reported that W. Duval Brown, American consul at LaPaz, American Trade Commissioner Schurtz and other representatives of the diplomatic and consular corps at the Bolivian capital had left the city with the former president.

The deposed president with the members of his official family, the dispatch stated, were sent to a Chilean port, where it is presumed he will take passage on some vessel calling at the port. Previous to his deportation Guerra had been a refugee in the American legation.

Departure of the American consul and trade commissioner and other diplomatic and consular officials with Guerra was not explained in the cablegram, but officials here said they undoubtedly escorted the former president from the country to see that he came to no harm.

Bolivia, the cablegram said, was completely under the control of the new regime headed by Bautista Saavedra, who had issued a proclamation providing for the formation of a provisional government under Jose M. Escalier. Business houses with the exception of banks had been ordered to open yesterday.

Burglars Get Clothing
Daylight burglars removed a screen from a window in the home of Wynman Robins, 412 South Forty-eighth avenue, yesterday, and stole clothing valued at \$35.

STRIKE VOTE TO BE TAKEN SOON BY USE OF WIRELESS

United Radio Telegraphers Propose Walkout as Result of Differences With Ship Owners.
New York, July 15.—For the first time in the history of the labor movement a strike vote will be taken by wireless the next day or two, when members of the Union Radio Telegraphers' association will be called on to decide whether refusal of American ship owners to treat with them is to result in a strike.

The major portion of the association's 4,000 members are at sea and the question will be transmitted from ship to ship by wireless. Decision to take the strike vote was reached at a meeting of the union's executive committee here today.

Demands of the association for increases in pay of junior operators from \$100 to \$150 a month, of chief operators from \$125 to \$200 a month and for an eight-hour working day were rejected at a meeting of representatives of the association, leading ship owners and the United States shipping board.

A committee of three of the radio telegraphers will appeal to Rear Admiral W. S. Benson, chairman of Washington, to seek a satisfactory agreement on wireless operators' wages and hours on shipping board vessels for the year beginning August 1, it was announced tonight.

STATE BOARD TO EQUALIZE ALL ASSESSMENTS

Returns From 32 Counties Indicate Big Increase in Valuations Over Those of Last Year.

Lincoln, Neb., July 15.—(Special.)—Secretary of Finance Philip F. Boss and Secretary W. H. Osborne of the State Board of Equalization have sent out the following notice to all county boards and clerks:
"Under the law the State Board of Equalization and Assessment is required to meet at the state capital on Monday, July 19, to equalize assessments by counties."
"It is the desire of the board to have as full and as complete information as is possible upon which to base their judgment, and, accordingly, it is requested that a representative from your county appear before the board on Monday, Tuesday or Wednesday, prepared to give such enlightenment as will be helpful to them in their efforts to see that full and complete justice is done to all."

The board desires to render its final decision at the earliest possible date, in order that county clerks may know what to expect; therefore, it is urged that all who can possibly do so, be present Monday morning, so that we may complete the hearing as soon as possible.

"If your abstract is not in as yet, please see that it reaches the secretary not later than Monday morning." But 32 of the counties of the state have reported on their assessment so far, which shows quite a considerable increase in the valuation. These counties are:

COUNTIES.	Total Assessed Value	Increase Over Last Year
Antelope	\$116,848.44	\$37,871.52

SWOBE IS FREED OF CHARGE UNDER "BLUE SKY" LAW

Police Court Judge Sustains Demurrer to Complaint by Assistant Attorney General.
A demurrer in behalf of Edwin T. Swobe was sustained in police court by Judge Fitzgerald yesterday in connection with charges of violating the "blue sky" law against him in a complaint made by Alfred C. Munger, assistant attorney general. Judge Fitzgerald held yesterday that there was no cause for the action.

"At the time the complaint was made there was no ground for the complaint and in no way had I violated the law," said Mr. Swobe this morning. "The court's action in sustaining my demurrer exonerates me from the charges made by Mr. Munger."

"On May 28 a representative of the bureau of securities asked me about some stock I owned. He did not buy any, but in spite of this Mr. Munger filed a complaint against me alleging that I sold and negotiated to sell 80 shares of the stock in question."

"It is nothing less than an outrage for a citizen to be brought into court under a cloud of having committed a crime when the only question involved was his right to sell his own personal property."

11,000 Barrels of Hard Booze Released for Medicinal Purposes
Chicago, July 15.—Coincident with the transfer of 11,000 barrels of liquor in a single deal, appealing telegrams were sent to President Wilson, asking that the lid be taken off the number of prescription blanks issued to physicians.
The 11,000 barrels of booze are to be split up into 1,100 cases "for medicinal purposes only," hence the messages to the president. This is considered the largest transaction in liquor since the 18th amendment became effective. It was reported by H. L. Oberfelder, president of Albert Dallemand & Co., brokers of Wabasha street, for the entire stock of the Clear Springs distillery at Bardonia, Ky., where a popular brand of whiskey was manufactured by Chas. Dennehy & Sons, have been sold to Schwartzhaupt & Co. The wholesale cost of the whiskey by the case was \$30 and the entire transaction involved approximately \$4,200,000. The Schwartzhaupt Co. will turn over the liquor to drugstores.

GOVERNOR SAYS NO POLITICS IN CAPITOL PLANS

Suggests Building Commission Suspend Activities Until After November Election To Avoid Prejudice.

Lincoln, Neb., July 15.—(Special.)—The capitol building commission held a meeting Wednesday and continued the services of Advisory Architect Kimball of Omaha until the closing contract has been made with Mr. Goodhue, the architect selected to make the plans for the building. Mr. Kimball will receive no compensation for his work. The fact that the matter of politics has been brought into the capitol building matter prompted the governor to offer the following proposal, which was adopted: "I suggest that the next stage in connection with building the new capitol should begin November 15, 1920. My reason for making this request is that I feel that the building of a new capitol for Nebraska is of such very great importance to the state that the work of the commission should not be prejudiced by politics. Since the work on the capitol would not begin for quite some time, anyhow, this arrangement will occasion no hardship upon the state or any of its citizens."

"During the interim, the exhibits that were considered in the competition may be brought to the attention of the people throughout the state, so that they may reflect upon the work of the jury who selected the architect, in that the commission may thus, in its further deliberations, more nearly reflect the wishes of the people of the state."

To newspaper men this morning the governor said in explanation of the above that politics should not enter into the building of the new capitol at all. "The capitol commission expects to use its best judgment in the matter of the erection of the building," said he, "and will at all times take into consideration the proposition of cost and construction of the building as economically as possible."
Bills were allowed covering unpaid expenses to date, including \$2,000 each for the exhibitors, excepting the successful competitor, and \$2,000 each for the three members of the jury. The first payment to the successful competitor will come due when the contract is made with him.

Woman Arrested for Refusing to Rent Negro Bathing Suit

Chicago Tribune-Omaha Bee Leased Wire.
New York, July 15.—Miss Jennie Newton in charge of the bathing suit office in Steeplechase park was arraigned before Magistrate Walsh in Coney Island court charged with discrimination in refusing to issue bathing clothes to George Wibecan, jr., a negro, son of an electrical contractor.
Wibecan said he stood in line twice, after purchasing a ticket for \$1.10 with from 20 to 50 persons ahead of him. All were accommodated with suits and locker rooms but each time he was told there was no room for him.

"SOULLESS MAN" READS BIBLE HIS SISTERS GAVE HIM

Locked in "Murderers' Row" Wanderer Regrets \$60 He Spent for Taxi for Girl.
Chicago, July 15.—Carl Wanderer, "the man without a soul," was transferred yesterday to the county jail, where he was placed in "murderers' row." He is the strangest and the calmest inmate in the history of that row, the police said.

The prisoner spent the greater part of the day waiting for a quick trial and an early execution. He spent much time over half a dozen prayer books and Bibles, which were brought to him by his father and his sisters.

His kinfolk wept when they were led to his presence. "Much obliged for the books," said Wanderer, "and don't take this so hard. I'm real sorry about it, of course, but a man's got to take his medicine."
The former lieutenant who slew his wife and a man whom he had hired to be on hand so he could be killed and branded as a highwayman said that death by hanging cannot come too soon.
He said he has but two regrets, one that he killed two persons; the other, that he spent too much money on Julia Schmitt, the 17-year-old girl, who caught his fancy some time before he tired of his wife.
"I must have blown in all of \$60 in taxis for that kid," he said. "Wasn't I the big sucker?"

Burlington Conductor Loses Both Legs When Hit by Train
Ashland, Neb., July 15.—(Special.)—Fred L. Weir, Burlington conductor on freight extra 5025, probably was fatally injured at 10:40 this morning in the local railroad yards. He was standing on a coal car when the unexpected stopping of the train threw him between the rails. The wheels cut off one leg above his ankle and the other below the knee. He was immediately taken on to St. Elizabeth hospital at Lincoln. Little hope is held for his recovery. Mr. Weir is about 35 years old, and has a wife and one child in Lincoln. He is an old employe of the railroad.

Beatrice Sheriff Arrests Man for Carrying Liquor
Beatrice, Neb., July 15.—(Special.)—Ed O'Connell was arrested at the Burlington station yesterday by Sheriff Schiek and lodged in the city jail on the charge of bootlegging and having liquor in his possession. The officer says that nearly a gallon of moist goods was found in his suitcase.

O'Connell was recently arrested and fined at Wymore and Beatrice on a similar charge. He is alleged to have been operating a still on the John Jurgens farm, northeast of the city, a few months ago when bogus federal officers visited his place and secured \$1,000 from him after threatening to arrest him for violating the liquor law.

Mailed Orders of Court Received Four Days Late
Twenty persons who were notified by mail to appear in police court Wednesday on charges of violating the automobile parking ordinance came straggling into court one at a time yesterday. Each insisted he had just received his notice. A number of others have not responded. Judge Fitzgerald said he believed they were telling the truth. However, he would like to know why notices placed in the postoffice in Omaha are not delivered to persons living in the city until three or four days after they are mailed.

Crippled Farmer Shoots Maniac in Self-Defense
Salem, Ore., July 15.—A farmer unable to run because of a crippled hip shot and killed John Leonard, escaped patient from the state hospital for the insane, when Leonard charged him with a pitchfork in a field.

"DANDERINE"
Stops Hair Coming Out; Doubles Its Beauty.
A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff besides every hair showing new life vigor, brightness, more color and thickness.

Sell Bread by Weight.
Pittsburgh, Pa., July 15.—An agreement has been reached between wholesalers and retailers, it was announced, to sell bread by the ounce instead of by the loaf. Three-fourths of a cent an ounce was fixed as the standard price.

Print Special Editions.
Mexico City, July 15.—All the morning newspapers of Mexico City today printed special July 14 editions in honor of France's national holiday.

Ensign Exonerated From Storing Liquor on Plane
New York, July 15.—Ensign Windsor H. Cushing was exonerated of charges of violating navy department orders forbidding storage of liquor aboard naval aircraft, when his court-martial ended at the New York navy yard. The court found that specifications against him had not been proved.

Women Agree to Be Good.
Prague, Slovakia, July 15.—Women deputies decided to try to introduce the practice of greater dignity and politeness into parliamentary discussions and have agreed not to disturb sessions by shouting protests or comments.

State Capitol Plans to Be Exhibited in Omaha Soon
Lincoln, Neb., July 15.—(Special.)—The new state capitol commission at a meeting here today agreed to send plans for the new capitol building to Omaha.
According to the commission the plans will be sent by truck to save expenses soon as word is received from Omaha that a place to exhibit them is ready. Other towns in the state also asked permission to exhibit the plans. The commission decided to show them only in Omaha. The date has not yet been announced.

3,404 VESSELS MAKE UP MARINE FORCE OF THE U. S.

Admiral Benson Declares Proposed Use of Hamburg-American Routes Is Business Proposition Only.

New York, July 15.—The proposed deal, now pending, by which American steamers would be operated on Hamburg-American world routes, was characterized as "no love feast, but a cold-blooded, thoroughly American proposition" by Rear Admiral William S. Benson, chairman of the United States shipping board, at a luncheon of the Advertisers' Agencies corporation to 250 ship owners, builders and merchant marine press agents here today.

Following an address describing the shipping board, its fleet and aims as promoter of American supremacy on the high seas, the admiral declared he favored sale of the Leviathan for \$3,000,000 and 25 per cent of the ship's earnings for ten years, as now offered for her. He added that the lowest bid of \$8,705,000 for refitting her for service was felt by the board to be too expensive.

Summarizing the present situation of the United States in number and charter of ships operated on the high seas, Admiral Benson said: "The total seagoing merchant marine of the United States June 30 consisted of 3,404 vessels of 11,278,741 gross tons, or approximately 16,918,212 dead weight tons. Of this total the shipping board now owns 1,502 vessels of 6,238,948 gross tons, equivalent to 9,358,421 dead weight tons. Of the total owned by the shipping board 673 vessels of 2,521,712 dead weight tons are of less than 500 dead weight tons each. Vessels between 500 and 6,000 dead weight tons number 145, or 754,853 dead weight tons. The tonnage at present controlled by the shipping board exclusive of vessels operated by the army are distributed in various trades as follows: Distributed on Routes. Thirty-nine per cent in northern European, 10 per cent in southern European, 3 per cent in African, 16 per cent in transpacific, 11 per cent in South American, 9 per cent in domestic service, 3 per cent operating between foreign ports and the rest miscellaneous. Of the steel vessels owned by the shipping board engaged in these services, 615 are operating from north Atlantic ports, 62 from South Atlantic ports, 184 from Gulf ports, 113 from Pacific ports, 74 are employed in coastwise service, 63 are operating between foreign ports and 121 are unallocated to any designated berth line or service. These latter virtually constitute the tramp service of the fleet. Four vessels are operating from unspecified home ports.

BAKER NAMES MEN TO DRAFT RULES ON WATER POWER USE

General Crowder Head of Committee for Administration of New Act.

Chicago Tribune-Omaha Bee Leased Wire. Washington, July 15.—Secretary of War Baker, who is chairman of the water power commission created by the new waterpower act, has appointed a committee of departmental representatives to draw up rules and regulations for the administration of the new act.

Gen. Crowder, judge advocate general, and former provost marshal in charge of the administration of the draft act, is head of the committee. Associated with him will be representatives of the Agricultural and Interior departments. Members of the waterpower commission, under the terms of the new law, are the secretaries of War, Interior and Agriculture.

Secretary Baker, in discussing the new law, said he believed it would be of great importance in aiding the development of the country. "No agency which this government has created for many years past is so important in its functions as the new federal waterpower commission," said Secretary Baker. "There will be no more valuable aid to the conservation of natural resources. Development of hydroelectric power will be of great importance to the industries of the country, and that will be possible is one of its important phases."

Lloyd Valued Red Flag Higher Than Stars and Stripes, Witness Says
Chicago, July 15.—Evidence concerning alleged radical tendencies of Wilson Cross Lloyd, millionaire socialist, was introduced in the trial of 20 alleged members of the communist party charged with conspiracy to overthrow the government.

F. K. Irving, Chicago policeman, testified that on November 20, 1918, after he had forcibly removed a red flag from Lloyd's automobile, the defendant told Judge Graham that he "valued the red flag higher than the American flag."
Lloyd, when interviewed last January by William A. Sadler, Chicago newspaper man, declared "violence is the only method left to overcome the government," Sadler testified.

Bank Cashier Confesses To Taking Large Amount
Chicago, July 15.—Axel Hedberg, 37 years old, employed as a teller in the Union bank of Chicago for a number of years, was arrested after he was said to have confessed taking \$23,000 from the bank within the last three or four years. Bank officers said he had acknowledged taking small amounts before the death of his wife a year and a half ago to meet the high cost of living. Since his wife's death the sums taken had increased and were nearly all used for entertainment in cabarets, they said.

Haas Brothers
Bakery Floor—Patton Block
16th & Farnam St.

On Friday—the most sensational sale of
