Girlish, Wrinkle-Free Skin Easy to Have

Since its remarkable astringent and tonic properties became known, clever women all over the world have been using the so-called face bath to "tone up" their faces, remove wrinkles and draw flabby cheeks and neck back to normal.

After using the solution, the face immediately feels much firmer. The skin tightens evenly all over the face, thus reducing lines and sagging. The formula is: Powdered azoicite, one ounce, dissolved in witch hazel, one-half pint.

This simple and harmless face bath is a splendid thing for the outdoor girl, since sun, wind and flying dust are its provocative of squinting and other conditions which cause wrinkles and crow's feet. Also it is fine to freshen up a tired face in hot, depressing weather.
