

SAY "DIAMOND DYES"

Don't streak or ruin your material in a poor dye. Insist on "Diamond Dyes." Easy directions in every package.

GIRLS! MAKE A LEMON BLEACH

Lemons Whiten and Double Beauty of the Skin

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White which can be had at any drug store, shake well and you have a quart of pint of harmless and delightful lemon bleach for few cents.

Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty of your skin.

Famous stage beauties use lemon juice to bleach and bring that soft, clear, rosy-white complexion. Lemons have always been used as a crackle, sunburn and tan remover. Make this up and try it.

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair into its natural color and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients in a large bottle, at little cost, at drug stores, known as "Weyth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

W. C. T. U. TURNS ITS GUNS UPON COSMETICS NOW

Same Women Who Claim Credit for Dry Amendment Organize to Banish the Painted Cheeks.

New York, July 3.—War on powder and paint has been declared by the same women who were so important a factor in effecting the passage of the prohibition amendment. Satisfied with their accomplishment in that direction, they are now turning their attention to the abuse of cosmetics and their utterances and promises on the subject count for anything an anti-cosmetic amendment is to be feared.

Fourteen hundred women, constituting the membership of the Kings County Women's Christian Temperance Union, will form the nucleus of the organization to start the onslaught on the paint and powder access.

At the last meeting of the season of the Frances Willard union of the W. C. T. U. of New York, Mrs. George F. Pashley, state superintendent, announced the new platform of the organization and was hailed with loud applause.

Mrs. Pashley said she thought things had grown much worse since the war. This she attributed to the fascination of men in uniform for young girls.

Genuine Aspirin

Take Tablets without Fear if you see the "Bayer Cross"

For Headache Pain, Colds, Neuralgia, Toothache, Earache, Lumbago, Rheumatism

Insist upon a "Bayer package," which contains safe, proper Directions. Proved safe by millions.

Bayer-Tablets of Aspirin

"Bayer" introduced Aspirin to physicians 20 years ago. Handy tin boxes of 12 Bayer tablets cost but a few cents—Larger packages, Aspirin is the trademark of Bayer Manufacture of Monocrocin, a product of Salicylic acid.

Doctor Tells How to Strengthen Eyesight 50 Per Cent in One Week's Time in Many Instances.

A free Prescription You Can Have Filled and Use at Home. Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not wear any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time. NOTE: Another prominent physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed to them. The manufacturer guarantees it to strengthen 50 per cent in one week's time in many instances or refund the money. It can be obtained from any good druggist and is one of the very few preparations I feel should be kept on hand for regular use in almost every family." It is sold in this city by all good druggists, including The Sherman & McConnell and the Michler Store.

The Last Corn

When you end your corn with Blue-jay, it will be the last corn you let grow. You will know how to stop the pain. And how to quickly and completely end all corns.

There are millions who use Blue-jay now, and they never let a corn remain.

The new-day way Blue-jay is the new-day way, the scientific method.

It was perfected in a laboratory world-famed for its surgical dressings. It is supplanting the many treatments which are harsh and inefficient.

It has made paring as ridiculous as it is unsafe, for paring doesn't end corns.

Do this tonight: Apply to a corn a Blue-jay plaster or liquid Blue-jay—whichever you prefer.

Mark where the pain stops. Then wait a little and the corn will loosen and come out.

© B & B 1920

What that corn does all corns will do. Some 20 million corns a year are ended in this way.

Don't suffer corns. Don't have your feet disfigured. They can be ended almost as easily as a dirt-spot on your face. They are just as inexcusable.

Don't forget this. It means too much to you.

Ask your druggist for Blue-jay.

Finger Prints Only Sure Identification; Use Not Confined to Criminal Classes

Photograph of Thumb Tip Will Never Change While Features May.

By MARGERY REX. New York, July 24.—In Norristown, Pa., the brave mother of baby Blakely Coughlin, recently kidnapped—is keeping up her spirits and saying she believes her child will eventually be found.

But meanwhile, whenever a clue is discovered, whenever a baby whose description tallies with that of her lost son is found, Mrs. Coughlin must take a trip to some distant place, expensive and disappointing at its end.

Each day that passes is changing Blakely's little features. In a few years if he were to be found it is doubtful if his own mother would recognize him.

There is only one means of identification that time doesn't change—the finger print.

The finger print has solved many crimes, traced many murderers. Some interested investigators of the Elwell mystery claim that if the retina of Elwell's eyes had been photographed, a picture of the murderer might have been found there. This theory was part of a statement with intent to prove Paris more expert in detecting crime than New York.

"The idea of taking pictures of dead men's eyes is an ingenious theme of detective stories," said Frederick Kuhne for many years attached to the bureau of criminal identification of the police department in this city, who is a finger print expert.

"But the finger print is the most positive means of identifying any person.

"Think of the endless trips and trouble in store for Mrs. Coughlin, whose little son has been stolen. No mother could hear of any clue without looking it up. And each trip that is fruitless means sickening disappointment for her.

Finger Prints End Worry. "If mothers had children fingerprinted, how much trouble could be prevented."

I thought of a magazine story written a few years ago by a clever young woman in which she told of babies carelessly lost and mislaid in hospitals. Curious as it seems, brand new babies of humanity with the same coloring of hair and eyes could be very easily mixed up. This writer recommended at that time, I recall, the finger-printing of babies immediately after birth to avoid heart-breaking mistakes. Imagine the mental turmoil of a young mother watching a child grow up, never knowing if the little one she sheltered were really her own.

Children change rapidly when growing from babyhood. Features and characteristics become more definite. But the tips of the fingers never change except to grow larger, but in expanding, the design of the lines remain unalterable.

"The idea of taking prints of fingers is associated in most minds with crime," continued Mr. Kuhne. "But it should not be thought of in that respect, in view of the help it can render to many other exigencies of life.

Not in Crime Alone. "For instance, take the case of a man making a will. He may name a relative for a beneficiary. But there may be two men of the same name in the family. After the signer of the will is dead, who can say to which relative he intended to will his fortune? A finger print of the object of his benevolence would simplify proceedings greatly.

"Often, in accidents, people are so helplessly injured that their bodies cannot be claimed by relatives. In fires and other disasters if we had finger prints of victims many a person would not go to an unknown grave.

"In the theft of the famous painting of Mona Lisa from the Louvre, a finger print led to the discovery of the thief.

"Before that time the French did

Baby BLAKELEY COUGHLIN

JOSEPH B. ELWELL

not want to use finger prints. That would mean the throwing out of the Bertillon system. The French are a very conservative people in such cases.

"Yet for a long time prints had been made secretly of the fingers of criminals, and were kept in the archives of the Paris police. Stole as Patriot.

Vincenzo Peruggio, while he was working in the Louvre, stole the picture because, according to his own statement, he wanted his own country, Italy, to have possession of the great work of her son, Leonardo da Vinci.

"But he left finger prints on the glass and frame that had enclosed Mona Lisa's famous smile. Later it was found those marks were identical with the prints of Peruggio's digits taken on a previous occasion, when he had been convicted of carrying firearms without a permit.

"In the Caruso gem robbery the strong box that contained the jewels should not have been touched after the loss was discovered. But everyone about handled it and the traces of fingers must have been obliterated.

A new compound, practically an oxy-chloride of lime, decreases the time required for hardening cement and improves its quality.

Whisky Hath Charms To Tame the Savage—Try This Out at Home

Alexandria, Va., July 24.—If a burglar comes to rob you, offer him whisky and you are saved. This is the advice of James M. Treake, of this city. He tried it and found it worked.

While alone in his store two negroes entered and demanded his money, one of them threatening him with a pistol.

Treake had a good-sized roll in his pocket and money in the till, but he didn't have a weapon.

He reached under the counter and drew out a pint of liquor.

"This is pretty good stuff; it's better than money," said Treake, holding out the bottle.

While they were drinking, the storekeeper looked out of the window and shouted: "Here comes the police!"

The negroes fled through the back door and scaled a fence and disappeared.

Approximately 75 per cent of the silk mills in Paterson, N. J., are shut down. The few that have resumed operations in the last few weeks have done so with a lower wage scale of employees.

Of English invention are machines for making briquets from the borings of brass or cast iron at a speed of four tons an hour.

Physician Explains Why He Prescribes Nuxated Iron for Run-Down, Anaemic People

Says It Quickly Increases the Strength and Energy of Men and Brings Roses to the Cheeks of Nervous, Run-down Women

Ask the first hundred strong people you meet to tell you how they got their strength and see how many reply "Nuxated Iron." Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital, (City Dept., New York and the Westchester County Hospital, New York) says: "Thousands of nervous, run-down, anaemic people suffer from iron deficiency, but do not know what to take. There is nothing like organic Nuxated Iron—Nuxated Iron—is quickly enriched the blood, and thereby put roses in the cheeks of women and give men increased strength and energy.

Unlike the other forms of iron, Nuxated Iron does not injure the teeth, nor upset the stomach, but is readily assimilated and you can quickly recognize its action by a renewed feeling of buoyant health. No matter what other iron remedies you have used without success if you are not strong or well you owe it to yourself to make the following test: Get how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. The absolute value of getting real organic iron and not another form of the metallic variety always ask for Nuxated Iron in its original packaging. Nuxated Iron will increase your strength, power and endurance of delicate, nervous, run-down people in two weeks' time in many instances.

MANUFACTURER'S NOTE: Nuxated Iron, which is recommended above is not a secret remedy, but one which is well known to druggists everywhere. Do not be misled by cheap imitations. The name Nuxated Iron is stamped on each bottle, so that the public may be sure of getting the genuine article. The manufacturer guarantees success and promptly refunds your money if you purchase or they will refund your money if you purchase by all good druggists in tablet form only.

PESKY BED BUGS

Bedbugs lay an average of seven eggs per day. Under favorable conditions they hatch in five days of which two-thirds are females. They mature to adult size and are capable of laying in four weeks. How many bedbugs would you have in a year if you left one female or egg unmoistened for one year? To rid the pesky bedbug, you can readily see how necessary it is to use a preparation that will kill the eggs as well as the live ones. P. D. Q. has been demonstrated by the leading Hospitals, Hotels and Railroad Companies that the safest and most economical way to stop future generations of bedbugs, roaches, fleas and ants is to use the new discovery, Pesky Devil Quiesce "P. D. Q." Quiesce "P. D. Q." makes a quart, enough to kill a million bedbugs, roaches, fleas and ants and at the same time destroy their eggs. Impossible for them to exist when P. D. Q. is properly used. "Paw" patent spot in every package to get the pesky devil in the hard-to-get-to-places and save the juice.

Special Hospital and Hotel sale \$2.50—makes six quarts of P. D. Q.—your druggist has it or get it for you. Sold by Sherman & McConnell Drug Co., and all other leading druggists, Omaha, Neb.

Hot Summer Sun Trying On the Complexion

How to Protect Your Skin and Bring Roses to Your Cheeks

A Free Oatmeal Prescription Does Its Work Overnight. You Can Prepare It at Home. New York—Exposure to sun, dust and wind has a very bad effect upon the skin and complexion. There is a way to overcome this. Here is the marvelous change it takes just one night to get such wonderful results," says Mae Edna Wilder when her friends ask about her wonderful complexion and the improved appearance of her hands and arms. "You must do the same thing if you follow my advice," she says. "I feel it my duty to tell every girl and woman what this wonderful prescription does for me. Just think of it. All this change in a single night. I never tire of telling others just what I have done for my skin. It is the identical formula that removed every defect from my face, neck, hands and arms. Until you try it you form no idea of the marvelous change it will make in just one application. The prescription, which you can prepare at your own home, is as follows:

"Go to any grocery store and get ten cents' worth of ordinary oatmeal, and from any department or drug store a bottle of Derwillo. Prepare the oatmeal as directed in every package of Derwillo. Before applying Derwillo cleanse the skin thoroughly with a good cleansing cream. (Liska cold cream I have found to be the best). The first application will astound you. It makes the skin appear transparent, smooth and velvety. I especially recommend this method for dark, sallow skin, shiny nose, freckles, tan, sun spots, coarse pores, rough skin, redness, wrinkles, and all other skin troubles. Blemish the face, hands and arms are help to. If your neck or chest is discolored from exposure to sun, or if you notice there any objectionable defect, it will disappear as if by magic. It is absolutely harmless and will not produce or stimulate a growth of hair. Since short sleeves are in vogue it is necessary to have beautiful hands and arms and no matter how rough and unattractive the hands and arms or what abuses they have had through hard work and exposure to sun and wind, this combination will work a wonderful transformation. Thousands who are using it report the same results I have had."

Mrs. O. C. says: "My complexion was poor and my skin rough. My neck, cheeks and arms were dark from exposure. The very first application of this wonderful Derwillo combination convinced me that my poor complexion and skin blemishes would soon be a thing of the past. In a few weeks all these unsightly defects had entirely disappeared and I shall always use it to keep my complexion as fine as the time. I have recommended it to my friends and they are just as enthusiastic over it as I am. We all use it before going to tea, parties, dances or parties and it's wonderful what a difference it makes in our appearance."

Mrs. G. V. writes: "Oatmeal and Derwillo have worked miracles with my complexion. I had many despicable wrinkles and a sallow, rough skin. My hands and arms were covered with freckles. After eight weeks' use of Mae Edna Wilder's wonderful combination prescription these objectionable defects have entirely vanished. I look ten years younger, and advise every girl and woman to try it and feel confident after one or two applications they will use it continually and be just as favorably impressed with it as I am. I recommend it to all of my friends."

NOTE—To get the best effect be sure to follow the complete directions contained in every package of Derwillo. It is so simple that any girl or woman can afford it. Department stores and drug stores guarantee that you will get a noticeable improvement after the first application. Write for book on "Rectal Diseases," with names and testimonials of more than 1,000 prominent people who have been permanently cured. Dr. E. R. TARRY, Sanatorium, Fetter Trust Bldg., (See Bldg.) Omaha, Neb.
