Beware the Home Brew

He who drinks a beverage made by the novice courts ptomaine poisoning, biliousness, and a host of other ailments.

The kitchen or basement does not provide facilities—for proper sterilization of vessels to overcome germs—for Pasteurizing to kill the living organisms in the brew, before they go into the stomach.

Enameled tanks and filtered air for aging are absent—white wood pulp for filtering is not available.

Try as you will, the experimental home brew is green, unclean, and injurious.

Drink Schlitz In Brown Bottles

It is Pure, Clean, and Healthful

It is made scientifically by a special process, the first step of which dates back two hundred sixty years.

ASK YOUR DRUGGIST

Alkali In Soap Bad For the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps are prepared shampoos contain too much alkali. This dries the scalp and makes the hair brittle, and ruins it. The best thing for steady use is Mulsified coconut oil shampoo (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simple moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get Mulsified coconut oil shampoo at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.
