**Over Rheumatism**

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. The S. Sherman & McConnell Drug Stores have been appointed agents for Allen in this vicinity with the understanding that they will freely return the purchase money on the first two bottles to all who state they received no benefit.

**ARGUMENT FOR NEW PRIMARY LAW IS FILED**

Members of Legislature Take Exception to Statements of Nonpartisan League Attorney.

Lincoln, July 27.—(Special).—The argument to be submitted by those favorable to the Reynolds primary law, which is to be submitted to a referendum of the voters at the regular November election, was filed with Secretary of State Amsberry yesterday.

Considerable objection was raised to the argument filed against the law by C. A. Sorenson, attorney for the Nonpartisan league, on the ground that in it placed matter which had nothing to do with the primary, and also what was intended to be a boost for the league candidates for governor, lieutenant governor and attorney general to be distributed at state expense.

The argument submitted in favor of the primary is signed by eleven members of the state senate and 22 members for the house.

They call attention to the fact that Sorenson in his argument favors the primary and opposes the convention, yet the Nonpartisan League for whom he is acting in the matter went into the primary in an effort to nominate its candidates for state offices, and when defeated then called a state convention and nominated the men whom it is now supporting, violating the principle of the present primary law in that regard.

Since the argument of Sorenson was filed he has on request of the secretary of state climaxed the Nonpartisan league platform except that which refers to the primary, but leaves in the boost for the candidates.

Ohta, Japanese consul general here, announced today. Ohta said he has already advised Tokyo he did not think the fire was of incendiary origin or resulted from an anti-Japanese plot.

"I believe the Japanese government's request for an investigation of the fire might have been prompted by reports that there was evidence of an anti-Japanese sentiment in Marysville," Ohta said.

**Bookkeeper Asks \$50,000 Damages From American State After Controversy Over Deposits.**

Suit for \$50,000 damages has been filed against the American State bank; J. W. Hastings, receiving teller; D. W. Gelselman, president of the bank, and other officials, by Miss Julia Napier, bookkeeper for the All-American Chemical Co.

The suit is the outgrowth of a controversy between Miss Napier and the bank in which she charged the bank failed to credit her employees with three deposits totaling more than \$1,400.

The deposits were said to have been shown in the company's bank book but credit for them was not shown on the bank's statement to the company.

Bank officials insisted the money was never brought to the bank and the figures in the pass-book were not those of any employee of the bank. Miss Napier insisted they were the figures of the receiving teller.

Miss Napier's employers and bank officials, assisted by police, investigated. There were no arrests. Miss Napier says that by false accusations of bank officials and employees and the publicity resulting therefrom her reputation has been damaged.

Her home is at 2882 Frederick street. She is 18 years old.
