Are Engagement Rings Worn on the Third Finger of the Left Hand?

Copyright, 1920, by the Wheeler Syndi-cate. Inc.) Inasmuch as the heart is manifestly the organ which supplies the body with blood, it was only natural that the ancients should consider it to be the seat of many emotions, including love. hatred, bravery and cowardice. This belief has come down to us in a number of ways-among them such words as "courage," derived from the French coeur, "heart; the English word "pluck," which originally meant the heart of an ox or steer, "chicken-hearted" and the like But one of the most striking proofs of this error in anatomy is the custom of wearing wedding and engagement ring on the

third finger of the left hand. The left side of the Lody is, of course, closer to the heart and, therefore, more definitely related to the emotions which were supposed to have their birth in that organ. Moreover, the peo-ple of olden times believed that there was a vein in the finger on which the wedding ring is now worn which led directly to the heart, instead of being supplied with blood through the medium of arteries. The third finger of the left hand was, therefore, considered to be sacred to the Goddess of Love and upon it was placed the token of engagements or marriage—a custom which is universally followed even to this day, despite the fact that we recognize the error of the belief which gave rise to the practice.

POMERENE URGES **RESUMPTION OF** CAMPAIGN PROBE

Democratic Leaders Strong for Publicity on G. O. P. Campagn Fund—Cox Making Headway With Speech.

By R. B. SMITH.

Chicago Tribune-Omaha Bee Leased Wire. Dayton, O., July 28.—Senator Pomerene of Ohio broke in on Governor Cox's seclusion at Trail's End Tuesday and assured him he already had taken steps to have the Kenyon senatorial committee investigate the governor's charges that the republicans are raising a campaign fund large enough to "stagger the nation's sensibilities."

The senator said he had written a letter to Senator Kenyon, chairman of the committee, now in Maine, urging him to call a meeting at an early date to inquire into the statements that big sums are being un-derwritten for the national campaigns of both parties. He has not yet heard from Senator Kenyon, but expects him to reconvene the com-

mittee very soon.

"The information which I have is sufficient to warrant a reopening of the investigation," said Senator Pomerene, after conferring with Governor Cox. "I think the committee ought to be the means of keeping the country constantly in-formed of the expenditures in the campaign. Under my resolution, which was adopted by the senate just before it adjourned, the committee has adequate authority to sit at any time during the campaign and hold hearings."

Publicity Best Remedy. Senator Pomerene said that he was convinced that the best remedy for big campaign expenditure evil was publicity, although he favored rigid federal limitation of disbursements in presidential primaries and elections. At present, he said, there is no law to enable the federal gov-ernment to hold down expenditures in presidential contests. It may be necessary to have amendments to the constitution to limit expenditures, he
