

ASK RAISE IN INTRASTATE RAIL RATES

Roads Request Commission to Boost Tariffs to Coincide With Increase Granted by Interstate Commerce Body.

NATIONAL OFFICIALS FAVORABLE TO RAISE

Start Readjustment of Whole Rate Structure With View Of Putting New Schedule Into Force by September 1.

Lincoln, Neb., Aug. 2.—(Special.)—Public hearings of the application of Nebraska carriers for an increase in intrastate rail rates began here tomorrow before the state railway commission.

Members of the commission said they could make prior to the hearings no comment on the recommendation that intrastate rates be raised except to call attention to the fact that the interstate commerce commission's action in granting the \$1,300,000,000 increase last week was taken with the understanding that the rail-way commissions would permit corresponding increases in intrastate rates.

Favorable To Increase.

Washington, Aug. 2.—Reasons requiring an increase of intrastate rates are very persuasive of the need for increase in intrastate rates, declared a report sent to various state railway commissions today by the three representatives of those commissions who sat with the interstate commerce commission during public hearings on the billion and a half dollar railroad rate case.

"When all matters are considered," says the report, "and remembering that where 13 men are considering controverted questions and of opinion must be composed or decided by the majority, we believe that the conclusion, considering all things, is just and fair and we give it our approval.

"A part of the responsibility to meet the situation rests upon the state commissions. Such increases as will be made in intrastate rates should, if possible, be made effective September 1, 1920."

The report is signed by William D. B. Ainey, chairman public utility commission, Pennsylvania; Robert C. Dunn of the Florida railroad commission and John A. Guher, of the Iowa railroad commission.

Effective By September 1.

Readjustment of the whole rate structure of the nation's transportation systems was started today with a view to putting into effect by September 1, the freight, passenger Pullman, excess baggage and milk rate increases authorized last Saturday by the interstate commerce commission.

While tariff experts are working on the general rate schedules, the carriers will make application to the various state agencies for advance in intrastate rates to correspond to those in interstate rates. Requests for advances in passenger, Pullman, milk and excess baggage tariffs are expected to be the same for all states as the increases in these charges authorized by the federal commission were general for the entire country. They were 20 per cent on passenger, milk and excess baggage charges and 50 per cent on rates for sleeping and parlor car space.

In the case of freight rates, the states will be asked to advance their tariffs to correspond with the increases granted by the federal commission for the territory in which the state is located. The interstate increases authorized are 40 per cent in eastern territory, 25 in southern and mountain territory, and 35 in western territory.

The railway executives have not calculated the total increased revenue to be derived from the rate advances, but the sum has been unofficially approximated at \$1,500,000,000.

SENATOR BUSY ON SPEECH FOR LEAGUE DEBATE

Opponent, to Meet Hitchcock At Winona Lake, Has Not Yet Been Chosen.

By E. C. SNYDER, Washington Correspondent of The Omaha

Washington, D. C., Aug. 2.—(Special Telegram.)—Senator Hitchcock returned to the capital from Atlantic City, business and politics demanding the senator's attention preparatory to his speech on the league of nations, to be delivered at Winona Lake, August 9. Just who the senator's opponent at Winona Lake is still undecided, that matter being left wholly in the hands of Chairman Hays of the national republican committee.

Senator Harding was asked originally to name some one to meet Mr. Hitchcock in debate at Winona Lake on the league of nations, but the republican presidential nominee, selecting all kinds of trouble for himself, should he designate the speaker to oppose the league of nations as it came from the hands of President Wilson, very wisely concluded to let Hays select Senator Hitchcock's antagonist in the joint debate. So far as Mr. Hitchcock is advised the man selected to meet the champion of the league in the senate has not been agreed upon.

After the Winona Lake meeting Senator Hitchcock will speak at Dixon, Ill., August 15, and at Merom, Ind., August 27, the original dates scheduled for the senator to begin his speech-making for Governor Cox.

The arrest closed a nationwide hunt by secret service men, during which they turned up similar notes in St. Louis, Chicago, Detroit and some Pacific coast cities, and found, they said, that Bentz had gone into the navy and then deserted.

NEW STEPS TO RELIEVE FUEL FAMINE

Commerce Commissioner Issues Order Prohibiting Over One Reconsignment of Coal When Loaded on Cars.

ANNOUNCE PENALTY TO STIMULATE UNLOADING

Railroads Are Authorized to File New Freight Tariffs For Reconsignment and Demurrage Rules.

Chicago Tribune-Omaha Bee Leased Wire. Washington, Aug. 2.—Further steps designed to relieve the coal situation were taken by the Interstate Commerce commission. Orders were issued prohibiting more than one reconsignment of coal when loaded in cars, and imposing a charge of from \$2 to \$5 per car for making even the single reconsignment.

The commission also announced that emergency penalty charges would be put into effect to stimulate quick unloading of all open top cars, particularly those loaded with coal, coke and lumber. These emergency demurrage charges of \$10 per day for each day cars are held over the free time allowed in existing rules will be effective until January 1, 1921.

The order limiting the reconsignment of cars is expected not only to speed up the movement of coal but to reduce the coal shortage and also make it more difficult for speculators to boost prices to abnormal levels.

Charge for Reconsignment. The order of the commission provides that in the case of the one reconsignment a charge of \$2 per car shall be made if the reconsignment order is received in time to permit instructions to be given to yard employes prior to the arrival of the shipment at the billed destination. This rule applies to reconsignments at all points of the United States.

If the reconsignment order is received in time to permit instructions to be given to yard employes within twenty-four hours after the arrival of car at destination a charge of \$5 will be made. This charge applies only to reconsignments at points within the territory east of the Missouri-Iowa state line, not including Gary and points within the Chicago switching district, and on and north of the Ohio river, and also points on the Chesapeake & Ohio, Norfolk & Western and Virginia roads east of Cincinnati. When reasons for the reconsignment charges at all points in the United States will be the same as local rates to and from points of reconsignment plus \$5 per car.

Stiff Storage Charge. The order relative to emergency penalty charges provides that a storage charge of \$10 per car will be assessed for each day or fraction of a day that a car loaded with lumber is held over 48 hours following the hour at which free time begins to run under the demurrage rules. On all open top cars and all cars loaded with coal or coke not released within the free time prescribed in the demurrage rules a storage charge of \$10 per day or fraction of a day will be made until car is released. The reconsignment restrictions apply to all open top cars and coal and coke in all cars.

AN UNDERGROUND SYSTEM TO BRING JAPANESE TO U. S.

Thousands Brought Into Country by Way of Honolulu and Mexico.

Tacoma, Wash., Aug. 2.—Definite location of the "underground system" on the Pacific coast by which thousands of Japanese are smuggled into the United States yearly, was announced here by Congressman Albert Johnson, chairman of the house subcommittee on immigration and naturalization, which he assembled to investigate Japanese activities in the northwest.

"Until we came to the northwest we had only an indefinite idea of the operations by which Japanese are being brought surreptitiously into the United States," said Chairman Johnson. "Now we have the key, so to speak.

"We have found that the Japanese underground system begins at Yokohama. From thence it leads to Honolulu and extends on across the Pacific to Guaymas on the Gulf of California. Here, either by water or across the border, the Japanese invaders are smuggled into the United States.

A perfect system of escort has been established. In Honolulu and at Guaymas, posts have been established which take care of the details of the smuggling. Mexican guards are known to have been bribed with \$10 at the same States-Mexican border. The same careful system of escort has been established both at Yokohama and Honolulu.

"Once the Japanese is smuggled into California, he is taken in tow by some member of the Japanese association, branches of which are in Oregon and Washington. He is taken to the bank and his credit established by a substantial deposit.

Then he goes out to the vineyards or into the agricultural districts and hides for five years. At the expiration of this time he can come out of seclusion. If he is questioned by the government authorities as to his residence here, he can quickly establish this by taking the authorities to the bank where five years before he made his first deposit. This establishes his bona fide residence of five years as required by the statute."

The theater of operations against the governor probably will be in the lower part of Lower California, not near Mexico, where it is thought Cantu would not attempt to force the issue.

Efforts will be made to avoid conflict with the United States authorities, the general added. The declaration of rebellion is said not to come direct from Cantu, but from other sources.

Governor Cantu reported "no news" to the War department yesterday.

G. O. P. UNITED IN STAND AGAINST NATION LEAGUE

Statement From Headquarters Declares Republicans Solidly In Favor of Harding's Position.

By The Associated Press. Marion, O., Aug. 2.—A claim of complete republican harmony behind Senator Harding on the league of nations issue was made in an official statement issued today by Harding headquarters here.

"Chairman White of the democratic national committee," the statement said, "has undertaken to answer some questions recently addressed to Governor Cox. His statement is chiefly a complaint because both Senator Hiram Johnson and former President Taft have expressed approval of Senator Harding's position. It is easy to understand how such evidences of republican unity are displeasing to Mr. White, but it was not anticipated that he would thus early in the campaign make such frank acknowledgment.

VILLA SELLS HIS LOYALTY TO FEDERALS

Bandit Chieftain Is Promised Immunity From Prosecution For Crimes Committed on Mexicans and Americans.

U. S. CONTINUES POLICY OF 'WATCHFUL WAITING'

No Move Made by Government Despite Fresh Reports of Outrages Against Citizens—Plan to "Pass the Buck."

By ARTHUR SEARS HENNING, Chicago Tribune-Omaha Bee Leased Wire. Washington, August 2.—Details received today of the "surrender" of Francisco Villa, which the administration continues solemnly to treat as seriously as does the new Mexican government, disclose that the transaction was really a purchase of the bandit's future loyalty, if not good behavior.

Villa is to be a commander of rurales, his men are to receive a year's pay and the government also is to reimburse certain victims of his extortions.

Villa is given immunity by the Mexican government from prosecution for the crimes he committed against Mexicans as well as Americans.

Although scarcely a week has passed in the last few years without adding more counts to the American case against Villa, the State department having received only today a report of his execution of an American in May, no move has been made by the Wilson administration to obtain the extradition of the bandit, who was indicted in Texas for the Columbus murder, despite the fact the president considered this crime of such enormity in 1916 as to justify the Pershing punitive expedition at a cost of the lives of American soldiers and many millions of dollars.

Continues Past Policy. The general understanding here, however, is that although outrages upon Americans still continue under the new Mexican government, officials intend to continue its policy of "watchful waiting" with a view to bequeathing the entire Mexican problem to either Harding or Cox.

The State department's report of Villa's execution of another American follows:

"Jose Bruzes Perez of San Antonio, Tex., claimed by his wife to be an American citizen, is reported missing since May 20, following a business talk with Francisco Villa, the Mexican bandit chief, the State department today advised today by the American consul at Chihuahua.

"Information gathered by the consul is to the effect that Perez, who had visited Villa on business matters on a number of occasions, went to see Villa at Lohouillas, state of Chihuahua, on May 20, when Villa caused Perez to robbing him, and that Villa became very angry and ordered Perez taken away, and that it is believed at Chihuahua that Perez was executed the same day under Villa's orders. The governor of Chihuahua is investigating the case."

Account of Surrender. The State department also issued the following account of the "surrender" of Villa:

"The surrender of Francisco Villa, the Mexican bandit, to the representatives of the Mexico City authorities is complete, according to reports, said to be authentic, forwarded to the State department today in a telegram from the American consul at Chihuahua. (Continued on Page Two, Column Six.)
